Re: Painted Pony Petroleum Certificate of Restoration Application (Part-II) for the Well Site Painted Pony Et Al Chowade A-97-I/94-B-10 (WA # 10416)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (Schedule B) for wellsite for the above referenced well authorization (WA # 10416) submitted by Gemini Environmental Solutions Ltd. on behalf of Painted Pony Petroleum Ltd. on December 22nd 2016.

The reclamation assessment report reviewed and found that the site has fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5696).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

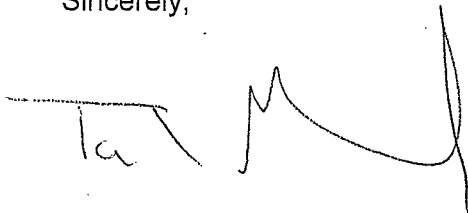

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore, potential liability related residual contamination from the subject oil and gas activity remains the responsibility Painted Pony Petroleum Ltd
