Re: Paramount Resources Certificate of Restoration Application (part II) for the Well Site PARA Berkley Tattoo C-81-D/94-O-15 (WA # 14010)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 14010) submitted by North Shore Environmental Consultants on behalf of Paramount Resources Ltd on December 16th, 2019.

Based upon review of the information provided by the applicant, the reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 6024).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Paramount Resources Limited remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line.

RESTORATION INFORMATION

C

Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):

The C-081-D/094-O-15 wellsite and its associated access road, campsite, remote sump, and borrow pit. An associated log deck was surveyed but was never constructed.

Details of any areas left unrestored at Landowner's request:

The wellsite is padded with material from the borrow pit. The OGC was contacted regarding leaving the pad in place. The OGC accepted the justification to leave the pad in place on August 2, 2019. The email correspondence is attached as part of the application.

Was "Approval to Construct" subject to any reclamation conditions?

☐ YES ☒ NO

Reclamation Inspection Report included?

☒ YES ☐ NO

Is this location within the Agricultural Land Reserve? If YES, attach Schedule B

☐ YES ☒ NO

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

6024

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date: Dec 23rd, 2019
