Re: Cequence Energy Certificate of Restoration Application (part II) for the Well Site Cequence Two Rivers A13-11-83-15 W6M (WA # 22497) and NRL Two Rivers 13-11-83-15 W6M (18025)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (Schedule B) for two overlapping wellsites for the above referenced well authorization (WA# 22497 and WA# 18025) submitted by Nor-Alta Environmental Services Ltd on behalf of Cequence Energy Ltd and Northpoint Resources Ltd on January 27th, 2017.

We received a letter from Cequence Energy stated that Cequence Energy will be handling the remaining requirements of the two wellsites WA# 18025 and WA3 22497 and they released Northpoint Resources of their responsibility.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5710). The CoR #5710 was issued for the two overlapping wellsites.

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Cequence Energy Ltd remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234.

Sincerely,

Taher Morsi, Ph.D., P.Ag
Environmental Management Officer

Is this location within the Agricultural Land Reserve? <i>If YES, attach Schedule B</i>			<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5710

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date:
