Re: Cequence Energy Certificate of Restoration Application (part II) for the Well Site Cequence Paradise 12-04-85-15 W6M (WA # 18213)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (Schedule B) for wellsite (**Never drilled**) for the above referenced well authorization (WA# 20310) submitted by Nor-Alta Environmental Services Ltd on behalf of Cequence Energy Ltd on June 9th, 2016.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5630).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

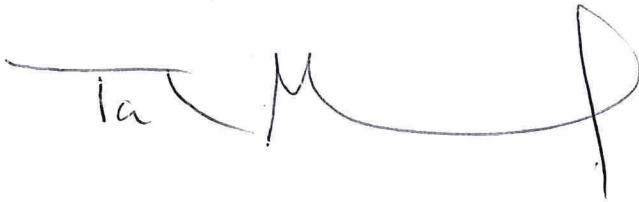

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Cequence Energy Ltd remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234.

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line.
