Re: Shell Canada Certificate of Restoration Application (Part-II) for the Well Site Shell
Sunset 09-17-79-18 W6M (WA # 20585)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (**Schedule B**) for wellsite for the above referenced well authorization (WA # 20585) submitted by SNC-Lavalin on behalf of Shell Canada Ltd on December 6th, 2019.

Based upon review of the information provided by the applicant, the reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 6064).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Shell Canada Ltd remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line.

RESTORATION INFORMATION		C
Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location): The site and associated access road are located on private land. The site's status is "Abandoned". The site is now suitable for a Certificate of Restoration Part 2 Approval.		
Details of any areas left unrestored at Landowner's request: The access road and approach from the Braden Road, existing culvert under the access, two swing gates accessing the site and perimeter fencing around the site.		
Was "Approval to Construct" subject to any reclamation conditions? – Nothing found in OGC file.		
Reclamation Inspection Report included?		
Is this location within the Agricultural Land Reserve? If YES, attach Schedule B		

APPROVAL – FOR COMMISSION USE ONLY		D
CERTIFICATE OF RESTORATION	CERTIFICATE NO.	<u>6064</u>
<p>This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.</p>		
Approval Date: <u>Jan 16, 2020</u>	 Authorized Commission Employee
