Calgary, Alberta, T2P 4K9

Attention: Joe Lamantia, Senior Land Manager

Re: Woodside Energy Certificate of Restoration Application (Part-II) for the Well Site Woodside Et Al Komie B-63-B/94-O-08 (WA # 27801)

This office has received an Application for a Certificate of Restoration (CoR-Part II) and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 27801) submitted by BV Land Corporation on behalf of Woodside Energy (International) Canada Ltd on July 20th 2018.

Based upon review of the information provided by the applicant, the reclamation inspection report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5970).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

“The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued.”

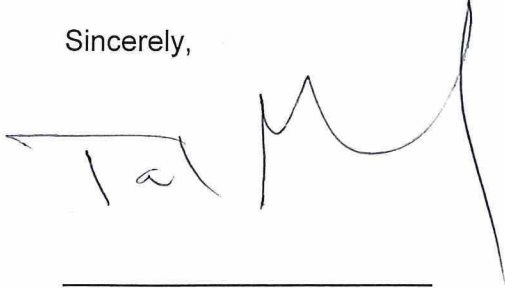

And:

“A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site.”

Therefore Woodside Energy (International) Canada Ltd remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi'. The signature is written in a cursive style with a horizontal line under the first name.

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5970

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.
