Re: Imperial Oil Certificate of Restoration Application (part II) for the Well Site IMP Pembina E BEG C-12-G/94-G-01 (WA# 3429)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 3429) submitted by Golder Associates Ltd on behalf of Imperial Oil Limited on January 15th, 2019.

Based upon review of the information provided by the applicant, the reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5954).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

“The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued.”

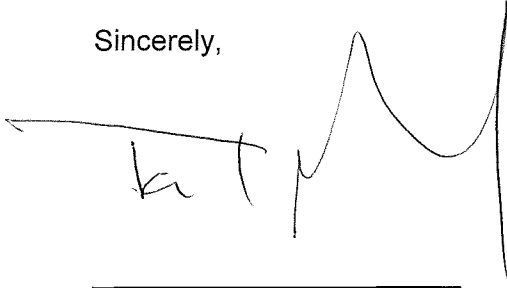

And:

“A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site.”

Therefore Imperial Oil Limited remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line. The signature is stylized with a large 'M' and a long horizontal stroke.

RESTORATION INFORMATION		C
Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):		
<p>The Site is at C-12-G/94-G-1 in the Beg area. It is surrounded by forested lands. The lease area is about 122 m by 122 m. The primary access enters from the south and the alternative access enters from the southeast; a campsite area was also cleared. The site accesses were for winter use only and were not built up. The well was drilled and abandoned in 1974. Two cut blocks intersect the access roads. Reclamation work was completed in 2015 and a Site Reclamation Inspection was completed in August 2018.</p>		
Details of any areas left unrestored at Landowner's request:		
None		
Was "Approval to Construct" subject to any reclamation conditions? <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		
Reclamation Inspection Report included? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO		
Is this location within the Agricultural Land Reserve? If YES, attach Schedule B <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5954

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.
