Attention: Jonathan Mast, Remediation Coordinator

Re: Canlin Energy Corporation Certificate of Restoration Application (part II) for the Well Site Canlin Et Al Two Rivers 07-24-83-16 W6M (WA # 10862)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (**Schedule B**) for wellsite for the above referenced well authorization (WA # 10862) submitted by SNC-Lavalin on behalf of Canlin Energy Corporation on January 18<sup>th</sup>, 2017.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5873).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

**"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."**

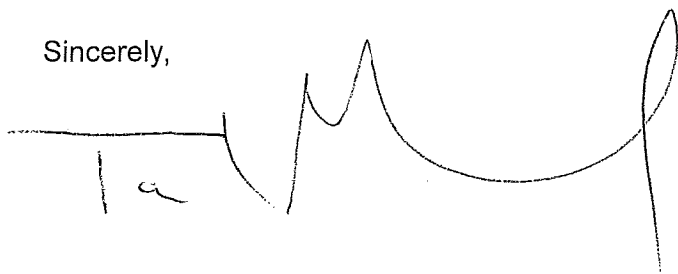

And:

**"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."**

Therefore Canlin Energy Corporation remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi'. The signature is written in a cursive style with a horizontal line underneath the first part of the name.

**RESTORATION INFORMATION** C

Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):

**The site is privately owned and was drilled from December 5, 1997 – January 17, 1998, and did not produce. The site consists of a wellsite, associated access road and suspect campsite. The status of the well is “abandoned” on the OGC well details sheet. This site is now suitable for certificate of Restoration Part 2 approval.**

Details of any areas left unrestored at Landowner's request:

**The access road from approximately 0 – 805m was not reclaimed as the occupant requested to leave that portion of the road in place to have access to the field. See release.**

Was “Approval to Construct” subject to any reclamation conditions? – Non noted.  YES  NO

Reclamation Inspection Report included?  YES  NO

Is this location within the Agricultural Land Reserve? If YES, attach Schedule B  YES  NO

Updated: 20 January 2014  
 Effective: 6 February 2014

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5873

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date:

July 9, 2018
