Attention: Brian R Sumbot, Consulting Country Manager

Re: Arawn Energy Ltd Certificate of Restoration Application (Part-II) for the Well Site Arawn S Grizzly C-43-B/93-I-15 (WA # 14004) and Arawn S Grizzly C-A43-B/93-I-15 (WA# 23808)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 14004 and WA# 23808 located at the same surface lease) submitted by Adlard Environmental Ltd on behalf of Arawn Energy Ltd on April 13th 2017.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5719).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

“The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued.”

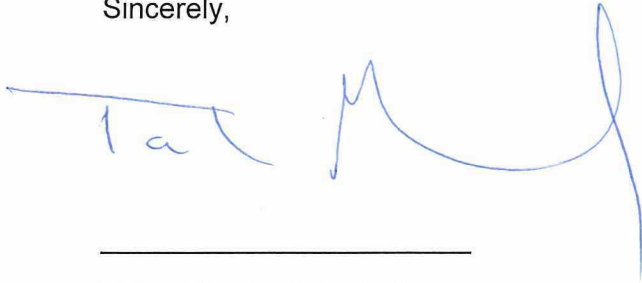

And:

“A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site.”

Therefore potential liability related residual contamination from the subject oil and gas activity remains the responsibility Arawn Energy Ltd

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

Taher Morsi, Ph.D., P.Ag
