Re: Canadian Natural Resources Certificate of Restoration Application (part II) for the Well Site CNRL Cecil 8-19-84-17 W6M (WA # 14196)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report (Schedule B) for wellsite for the above referenced well authorization (WA # 14196) submitted by SNC-Lavalin on behalf of Canadian Natural Resources Limited on July 15<sup>th</sup>, 2016.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5635).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

**"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."**

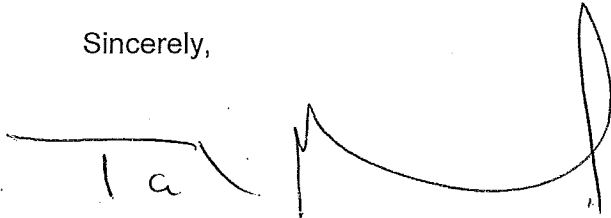

And:

**"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."**

Therefore Canadian Natural Resources Limited remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi'. The signature is fluid and cursive, with a large loop at the end.

---

<b>RESTORATION INFORMATION</b>			<b>C</b>
Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):			
<p><b>The site is located on private land and was drilled from July 7, 2001 – July16, 2001 and did not produce. The site consists of a wellsite and access road. The status of the well is “abandoned” on the OGC well details sheet. This site is now suitable for certificate of Restoration Part 2 approval.</b></p> <p><b>SNC-Lavalin met with the landowner on June 3, 2016. The landowner expressed that although they are generally satisfied with the current condition of the site, they would not sign a reclamation release. The landowners did not object to a COR application being submitted for the site. On behalf of CNRL, SNC-Lavalin is proceeding with application for a COR Part 2 without the landowner release.</b></p>			
Details of any areas left unrestored at Landowner's request:			
N/A			
Was “Approval to Construct” subject to any reclamation conditions? – Non noted. <span style="float: right;"><input type="checkbox"/> YES <input checked="" type="checkbox"/> NO</span>			
Reclamation Inspection Report included? <span style="float: right;"><input checked="" type="checkbox"/> YES <input type="checkbox"/> NO</span>			

Is this location within the Agricultural Land Reserve? *If YES, attach Schedule B*  YES  NO

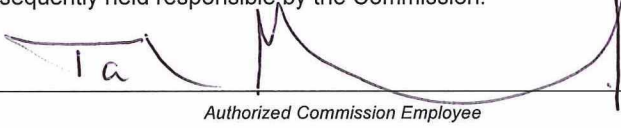

**APPROVAL – FOR COMMISSION USE ONLY** D

**CERTIFICATE OF RESTORATION**

**CERTIFICATE NO.** 5635

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date: Sep 6<sup>th</sup>, 2016
