Re: Polar Star Canadian Oil and Gas Certificate of Restoration Application (Part-II)
for the Well Site Polar Star Et Al Conroy D-93-E/94-H-12 (WA # 15929)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 15929) submitted by Gemini Corporation on behalf of Polar Star Canadian Oil and Gas Inc. on January 8th, 2018.

Based upon review of the information provided by the applicant, the reclamation inspection report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5810).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

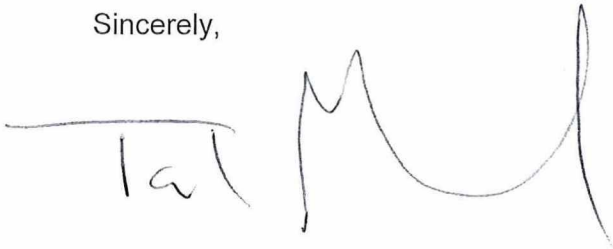

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore potential liability related residual contamination from the subject oil and gas activity on site remains the responsibility Polar Star Canadian Oil and Gas Inc.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line.

RESTORATION INFORMATION		C
Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):		
The wellsite, access road, and campsite were built as per the Survey Plan and were considered fully restored.		
Details of any areas left unrestored at Landowner's request:		
The site was built as surveyed and is located on Crown land. The decking site was not built. All the constructed areas associated with the site were considered satisfactorily reclaimed. Please refer to the Reclamation Inspection report completed by Gemini Corporation, dated October 31, 2017, for more detail.		
Was "Approval to Construct" subject to any reclamation conditions?		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
Reclamation Inspection Report included?		<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
Is this location within the Agricultural Land Reserve? If YES, attach Schedule B		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5810

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date:
