Re: Paramount Resources Certificate of Restoration Application (Part-II) for the Well Site PARA Sunrise 16-04-79-16 W6M (WA # 17745)

This office has received an Application for a Certificate of Restoration (CoR-Part II) and a Surface Reclamation Assessment Report for wellsite (**Never drilled**) for the above referenced well authorization (WA # 17745) submitted by BV Land Corporation on behalf of Paramount Resources Ltd on March 19th 2018.

Based upon review of the information provided by the applicant, the reclamation inspection report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5864).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

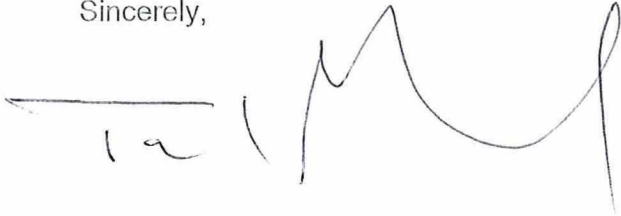

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Paramount Resources Ltd remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', written over a horizontal line.

RESTORATION INFORMATION	C
Description of Area(s) Restored (Location, Remote Sump, Access and other disturbed areas affiliated with this location):	
A 120 metre by 120 metre wellsite pad and 20 metre by 472 metre access road was partially developed within a cultivated field by stripping surface soils following the recommendations of the OGC-ALC Schedule-A Soil Handling Recommendations Report. The wellsite was never drilled and subsequently the stripped soil was replaced, and the land returned to hay field cultivation.	
Details of any areas left unrestored at Landowner's request:	
Was "Approval to Construct" subject to any reclamation conditions? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	

Reclamation Inspection Report included?

YES NO

Is this location within the Agricultural Land Reserve? *If YES, attach Schedule B*

YES NO

APPROVAL – FOR COMMISSION USE ONLY

D

CERTIFICATE OF RESTORATION

CERTIFICATE NO.

5864

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date:

March 27th 2018
