Attention: Darren DuPerrier, Environmental Advisor

Re: Pengrowth Corporation Certificate of Restoration Application (Part-II) for the Well Site Pengrowth Et Al Doig C-15-K/94-A-16 (WA # 20580)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 20580) submitted by Gemini Corporation on behalf of Pengrowth Energy Corporation on November 7<sup>th</sup>, 2018.

Based upon review of the information provided by the applicant, the reclamation inspection report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5818).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

**"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."**

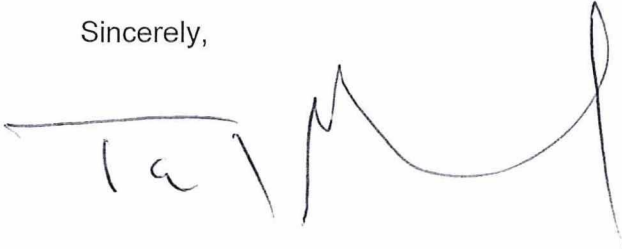

And:

**"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."**

Therefore potential liability related residual contamination from the subject oil and gas activity on site remains the responsibility Pengrowth Energy Corporation

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi', with a long horizontal line extending to the left.
