Re: Canadian Natural Resources Certificate of Restoration Application (part II) for the Well Site CNRL HZ Helmet A-66-G/94-P-7 (WA # 4220)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 4220) submitted by SNC-Lavalin on behalf of Canadian Natural Resources Limited on February 21st 2017.

On February 4th 2008, the wetland construction was approved on completion of five years vegetation monitoring with the provision that an application for CoR (part-II) would be allowed after three years of monitoring activities with all other reclamation objectives had been met.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5704).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

"The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued."

And:

"A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site."

Therefore Canadian Natural Resources Limited remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

Taher Morsi, Ph.D., P.Ag
Environmental Management Officer

Is this location within the Agricultural Land Reserve? <i>If YES, attach Schedule B</i>	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO

APPROVAL – FOR COMMISSION USE ONLY	D
------------------------------------	---

CERTIFICATE OF RESTORATION	CERTIFICATE NO. <u>5704</u>
<p>This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.</p>	
Approval Date: <u>March 3rd, 2017</u>	 Authorized Commission Employee
