Re: Canadian Natural Resources Certificate of Restoration Application (part II) for the Well Site CNRL LAPP D-55-D/94-H-10 (WA # 7643)

This office has received an Application for a Certificate of Restoration (CoR-Part II), and a Surface Reclamation Assessment Report for wellsite for the above referenced well authorization (WA # 7643) submitted by SynergyAspen Environmental on behalf of Canadian Natural Resources Limited on January 2nd 2018.

The reclamation inspection assessment report was reviewed and was found that the site has been fully reclaimed and the restoration of the site is satisfactory. Therefore, your application for a Certificate of Restoration is approved and a copy of the Certificate of Restoration is enclosed (Certificate # 5793).

Please note Section 41(3) of the Oil and Gas Activities Act (OGAA) and section 47 (1) of the Environmental Management Act, which respectively read:

“The issuance of a certificate of restoration does not relieve a person from any obligations under section 40 or under an order referred to in subsection (1) (b) of this section in respect of any matter that was not known to the commission at the time the certificate of restoration was issued.”

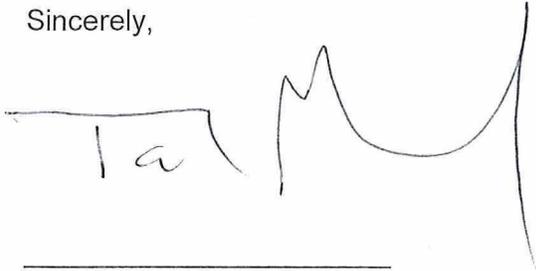

And:

“A person who is responsible for remediation of a contaminated site is absolutely, retroactively and jointly and separately liable to any person or government body for reasonably incurred costs of remediation of the contaminated site, whether incurred on or off the contaminated site.”

Therefore Canadian Natural Resources Limited remains liable for any contamination presently on site.

Any questions can be directed to the undersigned at (250) 794-5234

Sincerely,

A handwritten signature in black ink, appearing to read 'Taher Morsi'. The signature is written in a cursive style with a horizontal line underneath the first part of the name.

RESTORATION INFORMATION		C
Description of Area(s) Restored (<i>Location, Remote Sump, Access and other disturbed areas affiliated with this location</i>):		
<p>The wellsite was 122 m x 122 m in size and was constructed on Crown land, not within the boundaries of the Agricultural Land Reserve. During the file review, a borrow pit, temporary trailer site, common remote sump and a campsite were all referenced. During the field inspections, confirmed by the Manifest of Site Cleanup Confirmation, it was concluded that the 20 m x 60 m campsite was not constructed. According to the COR Part I Application, the remote sump has been legally tied to wellsite CNRL D-055-D/094-H-10. A 50 m x 50 m borrow pit was constructed, off of the Northeast corner of the wellsite. The borrow pit is holding water and is stable. The 10 m x 60 m temporary trailer site is located along the access road, near the South boundary of the wellsite. The access road associated with the wellsite was a winter access, in which no soil disturbance occurred. The wellsite and temporary trailer site have been satisfactorily restored and no further work is required at the site.</p>		
Details of any areas left unrestored at Landowner's request:		
Not applicable, as the site is located within forested Crown land.		
Was "Approval to Construct" subject to any reclamation conditions?		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
Reclamation Inspection Report included?		<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
Is this location within the Agricultural Land Reserve? <i>If YES, attach Schedule B</i>		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO

CERTIFICATE OF RESTORATION

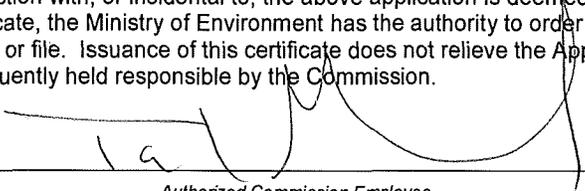

CERTIFICATE NO.

5793

This is to certify that the surface of the land held in conjunction with, or incidental to, the above application is deemed to be satisfactorily restored. Despite the issuance of this Certificate, the Ministry of Environment has the authority to order further site investigation or remedial action upon inspection of the site or file. Issuance of this certificate does not relieve the Applicant of any restoration requirements for which the Applicant is subsequently held responsible by the Commission.

Approval Date:
