

Got an
unresolved
oil and gas
issue?

Let us help!

Mediation is a confidential process whereby an experienced mediator helps two parties have a conversation, which may lead to a resolution of differences.

This service provides an additional level of post-permit support in cases where land owners and industry are not able to agree on remedies for operational complaints and site restoration.

This service is available at no cost. In addition, the BCER will not be providing financial support regardless of the mediation outcome.

This process is for land owners with oil and gas activities on their properties or adjacent to their properties and industry who have issues within the BCER's regulatory jurisdiction.
