GENERAL ORDER 2017-019

Issued to:

Taqa North Ltd.
2100, 308 - 4th Avenue SW
Calgary AB T2P 0H7

Attention: Michael Bolianatz, Senior Regulatory Compliance Coordinator

Order:

Pursuant to section 49(1)(a) and (b) of the *Oil and Gas Activities Act* (the Act), I, Jacques Corstanje, order that Taqa North Ltd. (Taqa North) must:

1. On or before May 5th, 2017:

 - b. Ensure that road drainage systems, including drainage structures, culverts, and ditches are functional, from kilometer 2.6 to kilometer 5.6 of North Taqa Road.
 - c. Commission an independent environmental monitor to observe all remedial works with the aim of ensuring that further sediment is not allowed to enter Coal Creek as a result of such remedial works.
2. On or before June 3rd, 2017:
 - a. Ensure that road drainage systems including drainage structures, culverts, and ditches are functional from kilometer 0 to kilometer 2.6 and from kilometer 4.6 to kilometer 7 of North Taqa Road.

Conditions:

- A. This order shall remain in effect until amended or terminated in whole or in part by the Commission.

GENERAL ORDER 2017-019

Reasons:

I make this Order for the following reasons:

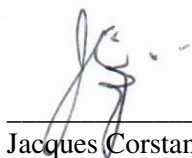

- i. Taqa North is the permit holder of PDR 222.
- ii. An inspection of PDR 222 in April 2017 showed safety and non-compliance issues with road maintenance.
- iii. These non-compliances have contributed to sediment entering the fish bearing Coal Creek.
- iv. I am of the opinion that the volume of sediment entering the stream is deleterious to the environment.
- v. I am of the opinion that Taqa North has failed to comply with the Act and regulations.
- vi. I am also of the opinion that this order is necessary to protect the environment.
