**RE: Warning: Fail To Comply With Condition Of An Authorization**

Dear Ms. Pimm,

Westcoast Energy Inc holds an authorization issued under the Water Sustainability Act. This authorization contains a standard condition as follows:

*The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. Water withdrawal records for each diversion point, including "0" values for months where no water was withdrawn, must be recorded monthly. Quarterly reports are due on or before April 25th, July 25th, October 25th, and January 25th, via eSubmission.*

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the Oil and Gas Commission (Commission). A report for the Quarter 2, 2022 was due no later than July 25, 2022.

On August 11, 2022, the Commission received the required report. This was 17 days past the due date.

Late reporting may result in issuance of a violation ticket. The Commission notes that Westcoast Energy Inc has not had any previous non-compliance tickets related to late water withdrawal reporting in the past three years.

Given the circumstances, Westcoast Energy Inc is hereby issued a warning only for the following:

Westcoast Energy Inc, on or about July 26, 2022, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Westcoast Energy Inc has any questions about this matter please feel free to contact the undersigned.

Sincerely,
