Attention: Ghazanfar (Guz) Zafar

RE: Warning: Fail To Comply With A Condition Of An Authorization

Dear Guz Zafar,

Tallahassee Exploration Inc. holds short term water use authorization AD 100115096, WU 6104, issued under the Water Sustainability Act. This authorization contains the following condition:

The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. Water withdrawal records for each diversion point, including '0' values for months where no water was withdrawn, must be recorded monthly. Water withdrawal records must be submitted to the Commission on a quarterly basis via eSubmission. Quarterly reports are due on or before April 25, July 25, October 25 and January 25.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the Oil and Gas Commission (Commission). A report for the months of October, November and December, 2022, was due no later than January 25, 2023.

On February 6, 2023, the Commission received the required report after Tallahassee Exploration Inc. was contacted. This was 12 days past the due date.

Late reporting may result in issuance of a violation ticket. The Commission notes that Tallahassee Exploration Inc. has no recent previous non-compliance history related to late water withdrawal reporting.

Given the circumstances, Tallahassee Exploration Inc. is hereby issued a warning only for the following:

Tallahassee Exploration Inc., on or about January 26, 2023, at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Tallahassee Exploration Inc. has any questions about this matter, please feel free to contact the undersigned.

Sincerely,

<original signed by>

Manager, Enforcement
British Columbia Oil and Gas Commission
