Calgary, AB T2P 2H7

Attention: Patrick Keough, P. Eng.

RE: Warning: Fail To Comply With A Condition Of An Authorization

Dear Patrick Keough,

ConocoPhillips Canada Resources Corp. holds a number of water licences issued under the Water Sustainability Act. Each authorization contains a similar reporting condition as follows:

The license holder shall retain records of measured discharge as per the requirement of Condition (J) in units of cubic meters per second and daily water withdrawals in units of cubic metres. This information must be submitted to the Commission via the relevant process at the time of submission on a quarter-annual basis, on or before January 25, April 25, July 25 and October 25, for the preceding three month period or at anytime otherwise requested by the Commission. This requirement for water use reporting can be amended from time to time as directed by the Water Manager.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the Oil and Gas Commission (Commission). A report for the months of October, November and December, 2022, was due no later than January 25, 2023.

On February 1, 2023 the Commission received the required reports. This was 6 days past the due date.

Late reporting may result in issuance of a violation ticket. The Commission notes that ConocoPhillips Canada Resources Corp. has no previous non-compliance history related to late water withdrawal reporting.

Given the circumstances, ConocoPhillips Canada Resources Corp. is hereby issued a warning only for the following:

ConocoPhillips Canada Resources Corp., on or about January 26, 2023, at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If ConocoPhillips Canada Resources Corp. has any questions about this matter, please feel free to contact the undersigned.

Sincerely,

<original signed by>

Manager, Enforcement
British Columbia Oil and Gas Commission
