Attention: Joanne Germaine,

RE: Warning : Fail To Comply With A Condition Of An Authorization

Dear Joanne Germaine,

Kiwetinohk Energy Corp. holds water authorizations AD 100117070 and AD 100114799 issued under the Water Sustainability Act. Each authorization contains a standard condition as follows:

The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. Water withdrawal records for each diversion point, including '0' values for months where no water was withdrawn, must be recorded monthly. Water withdrawal records must be submitted to the Commission on a quarterly basis via eSubmission. Quarterly reports are due on or before April 25, July 25, October 25 and January 25.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the BC Energy Regulator (Regulator). A report for the month of March, 2023, was due no later than April 25, 2023.

On May 17, 2023, the Regulator received the required report for the month of March for the 2 authorizations. This is the second reporting period in a row when Kiwetinohk Energy Corp. has failed to report out on the three previous months as required by the authorization.

Given the circumstances, Kiwetinohk Energy Corp. is hereby issued a warning only for the following: Kiwetinohk Energy Corp., on or about April 26, 2023, at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Kiwetinohk Energy Corp. has any questions about this matter, please feel free to contact the undersigned.

Sincerely,
