Vermilion Energy Inc.
3500, 520-3 Ave SW
Calgary, AB T2P 0R3

Attention: Jared Trudeau,

RE: Warning : Fail To Comply With A Condition Of An Authorization

Dear Jared Trudeau,

Vermilion Energy Inc. holds water authorizations STWU# 5914 for AD 100113002 and STWU# 5926 for AD 100113059, issued under the Water Sustainability Act. These authorizations contain a standard condition as follows:

The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. Water withdrawal records for each diversion point, including “0” values for months where no water was withdrawn, must be recorded monthly. Quarterly reports are due on or before April 25, July 25, October 25, and January 25, via eSubmission.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the BC Energy Regulator (Regulator). Reports for the month of April 2023, were due no later than July 25, 2023.

On August 14, 2023 the Regulator received the required reports. This was 20 days past the due date. Late reporting may result in issuance of a violation ticket. The Regulator notes that Vermilion Energy Inc. has no recent non-compliance history related to late water withdrawal reporting.

Given the circumstances, Vermilion Energy Inc. is hereby issued a warning only for the following: Vermilion Energy Inc., on or about July 26 2023 at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Vermilion Energy Inc. has any questions about this matter, please feel free to contact the undersigned.

Sincerely,

<original signed by>

Compliance and Enforcement Officer
British Columbia Energy Regulator
