RE: Warning : Fail To Comply With A Condition Of An Authorization

Dear Jennifer Collins,

Westcoast Energy Inc. (Westcoast) holds water authorization 100121082 issued under the Water Sustainability Act. This authorization contains a standard condition as follows:

The permit holder must maintain accurate records of all water withdrawal activities throughout the term approved. Water withdrawal records for each diversion point, including '0' values for months where no water was withdrawn, must be recorded monthly. Water withdrawal records must be submitted to the BC Energy Regulator on a quarterly basis via eSubmission. Quarterly reports are due on or before April 25, July 25, October 25 and January 25.

This condition provides the company 25 days to compile its water withdrawal data and to submit a report to the BC Energy Regulator (Regulator). A report for the months of April, May, June, 2025, was due no later than July 25, 2025.

On July 29, 2025 the Regulator received the required report. This was 4 days past the due date. Late reporting may result in issuance of a violation ticket. The Regulator notes that Westcoast has no history in the last three years related to late water withdrawal reporting.

Given the circumstances, Westcoast is hereby issued a warning only for the following:
Westcoast, on or about July 26, 2025, at or near Fort St. John, in the Province of BC, did fail to comply with the condition of an authorization contrary to Section 106(3)(k) of the Water Sustainability Act.

If Westcoast has any questions about this matter, please feel free to contact the undersigned.

Sincerely,

<original signed by>

Compliance and Enforcement Officer
British Columbia Energy Regulator
