April 18, 2023

VIA ELECTRONIC MAIL:

Dear

Re: Request for Access to Records – Response
Freedom of Information and Protection of Privacy Act (FOIPPA)

I am writing further to your request received by the BC Energy Regulator (BCER) for: ***All internal communications, memos and briefing notes discussing anonymous claims of vandalism on the Coastal GasLink pipeline that were posted to the website bccounterinfo.org on Feb 24, 2023***

Date Range: February 24-28, 2023

Some information has been withheld pursuant to section(s): 13 (Policy advice or recommendations), 16 (Disclosure harmful to intergovernmental relations or negotiations), 17 (Disclosure harmful to the financial or economic interests of a public body) and 22 (Disclosure harmful to personal privacy). A complete copy of FOIPPA is available online at: [Freedom of Information and Protection of Privacy Act \(gov.bc.ca\)](http://Freedom of Information and Protection of Privacy Act (gov.bc.ca)).

Please note, a copy of these records will be published on the BCER's website within ten business days after release. To find out more about proactive disclosure of requests, please access the BCER website: [BC Energy Regulator \(bc-er.ca\)](http://BC Energy Regulator (bc-er.ca)). Your file is now closed.

Pursuant to section 52 of the FOIPPA, you may ask the Office of the Information and Privacy Commissioner (OIPC) to review any decision, act, or failure to act with regard to your request under FOIPPA. Please note that you have 30 business days to request a review by writing to:

Information and Privacy Commissioner
PO Box 9038 Stn Prov Govt
4th Floor, 947 Fort Street
Victoria BC V8W 9A4
Phone: 250.387.5629 Fax: 250.387.1696
Email: info@oipc.bc.ca

If you request a review, please provide the OIPC with a copy of your original request, a copy of the BCER's response, and the reasons or grounds upon which you are requesting the review. Further information on the complaint and review process can be found on the OIPC website: <https://www.oipc.bc.ca>. Please write FOIIntake@bc-er.ca, if you have any questions regarding your request or require any further clarification.

Sincerely,

D. Keough
BC Energy Regulator

Dear Executive team,

Please review our proposed response below to a request from *The Tyee* regarding an anonymous group's claims of vandalism to the CGL pipeline.

Thanks,

Jon

REPORTER:

Amanda Follett Hosgood
The Tyee

DEADLINE:

2:45pm today

REQUEST:

I'm wondering if the BC OGC is aware of the claims by an anonymous group saying they have vandalized sections of the Coastal GasLink pipeline. Posted here: <https://bccounterinfo.org/>

Does OGC take these sorts of claims seriously?

Could there be safety concerns?

Will anyone be investigating?

Will this require additional inspections by OGC and/or CGL?

Any information appreciated.

Cc: Friedrich, Hardy <Hardy.Friedrich@bc-er.ca>; Currie, Graham <Graham.Currie@bc-er.ca>
Subject: CGL statement

FYI – this was shared with the LNGC Secretariat and some media by CGL.

Coastal GasLink is aware of anonymous claims made on an anarchist website of a coordinated sabotage attack on the project.

While we have no evidence at this time to suggest tampering has occurred, we take every threat to the integrity of our pipeline infrastructure very seriously. We are fully cooperating with the RCMP in an investigation of these claims and as always, will prioritize the safety of our work crews and the communities around us. Our Quality Assurance team has initiated a review of the anarchist claims.

From the time trenching begins to the point the pipeline is backfilled, there are inspections at every step of the way. Our teams use state-of-the-art [pipeline safety systems](#) to carefully inspect every section of pipe, not to mention the rigorous testing we do before the pipeline is commissioned.

We recognize that there are different opinions about projects like Coastal GasLink, however threats of tampering, sabotage, and violence are never justified.

These claims follow a concerning trend of escalating violence. From the [axe attack at a Coastal GasLink site](#) a year ago, to the [arson attack on first responder vehicles](#) in Smithers last October.

Attacks to energy infrastructure should concern all Canadians. Regardless of their authenticity, we believe these claims are intended to delay our project and spread fear and violence. They must not be tolerated or accepted, and we believe most Canadians would agree.

Thousands of women and men from Indigenous and local communities across B.C. are working hard on major projects like Coastal GasLink today. They deserve to work in a safe environment, without fear of sabotage or other violent attacks, while they provide for their families and communities.

Coastal GasLink is focused on safely completing this critical piece of energy infrastructure that will delivery critical Canadian LNG to the world and lasting prosperity to Canadians.

Hi Andy, Ken, Peter, and Mayka,

Please review our proposed response below to The Tyee's request regarding an anonymous group's claims of vandalism to the CGL pipeline.

Thanks,

Jon

REPORTER:

Amanda Follett Hosgood
The Tyee

DEADLINE:

3pm today

REQUEST:

I'm wondering if the BC OGC is aware of the claims by an anonymous group saying they have vandalized sections of the Coastal GasLink pipeline. Posted here: <https://bccounterinfo.org/>

Does OGC take these sorts of claims seriously?

Could there be safety concerns?

Will anyone be investigating?

Will this require additional inspections by OGC and/or CGL?

Any information appreciated.

Subject: RE: FLAG - CGL report / we might be asked for more info.

Hello.

I pasted a slightly longer list that was online below. Pointing out the following for each item:
s13,s17

4. At the end of November, we drilled and filled holes in the pipe string before it would be lowered into section 6 of the pipeline between Kilometers 486 and 489.
5. In early December, we chipped and busted the welds on a section of pipe that had not yet been lowered into the trench between Kilometers 606 and 609.
6. We damaged the protective coating on a section of pipe by chipping and grinding, and chipped a welded seam on several sections of pipe before they were backfilled between Kilometer 377 and 380 of section 5 of the pipeline. This work was performed in early January.
7. Near Kilometer 27 of North Hirsch forestry road we damaged welds and coating on a pipe section in the middle of January.
8. We poured hydrochloric acid on the concrete pipes we knew were meant for the tunnel under Wedzin Kwa and used a concrete drill inside the pipe to weaken them even further. The concrete pipes are designed to protect the pipe itself from the pressure of the surrounding soil. Given the heightened security and surveillance of concrete pipe storage, we can't say when this happened.
9. In early December, we grinded and chipped the coating on the welded seams of the pipe sections between Kilometers 598 to 601.
10. In mid February, we scraped and chipped large portions of the pipe coating of the string between Kilometers 626 and 629.

We may be asked for more info on this:

Original email from the bottom and the snippet:

Good morning Sarah,

A quick flag to let you know there is an anonymous report circulating on Twitter suggesting there has been a concerted and ongoing effort behind the scenes by 'ecoterrorists' to sabotage the CGL pipeline.

Unfortunately I can no longer access the full report but yesterday MLA Ross was tweeting out snippets from it (see below) calling on RCMP and government to look into these allegations.

4. At the end of November, we drilled and filled holes in the pipe string before it would be lowered into section 6 of the pipeline between Kilometers 486 and 489.
5. In early December, we chipped and busted the welds on a section of pipe that had not yet been lowered into the trench between Kilometers 606 and 609.
6. We damaged the protective coating on a section of pipe by chipping and grinding, and chipped a welded seam on several sections of pipe before they were backfilled between Kilometer 377 and 380 of section 5 of the pipeline. This work was performed in early January.
7. Near Kilometer 27 of North Hirsch forestry road we damaged welds and coating on a pipe section in the middle of January.

See the twitter notes below on some allegations of sabotage – I am not sure the validity on these but just so you are aware. I will call CGL this morning and get any information that they might have.

Hi both – have either of you heard about this yet / can we please look into it ASAP?
This could be something MMF would need to answer to in QP today if MLA Ross takes this direction.

FYI – not sure how accurate this is – but worth a flag.

Obviously first and foremost a RCMP / PSSG matter to look into these allegations to determine whether they are credible.
