

June 2, 2026

VIA ELECTRONIC MAIL:

Dear _____ :

Re: Request for Access to Records – Response
Freedom of Information and Protection of Privacy Act (FOIPPA)

I am writing further regarding your request received by the BC Energy Regulator (BCER) for the following:

A copy of any directive the BC Energy Regulator received from the Provincial Government telling them not to travel to any conference but also the CeraWeek which occurred between March 23-26, 2026; and any information about any other conference the BCER had planned to attend, or intended to attend, or cancelled attending for the calendar year 2026.

Please see the attached records located in response to your request. Some information has been withheld pursuant to section(s): 13 (Policy advice or recommendations); 15(1)(l) (Disclosure harmful to the security of a system); 16 (Disclosure harmful to intergovernmental relations or negotiations); 17 (Disclosure harmful to economic or financial interests of a public body) and 22 (Disclosure harmful to personal privacy) of FOIPPA. A complete copy of FOIPPA is available online at: [Freedom of Information and Protection of Privacy Act \(gov.bc.ca\)](https://www.gov.bc.ca/foip).

Please note, a copy of these records will be published on the BCER's website a minimum of ten business days after release. To find out more about proactive disclosure of requests, please visit the BCER website: [Proactive-Disclosure-of-FOI-Requests-Guide.pdf](#). Your file is now closed. Pursuant to section 52 of the FOIPPA, you may ask the Office of the Information and Privacy Commissioner (OIPC) to review any decision, act, or failure to act with regard to your request under FOIPPA within 30 business days by writing to:

Information and Privacy Commissioner
PO Box 9038 Stn Prov Govt
4th Floor, 947 Fort Street
Victoria BC V8W 9A4
Phone: 250.387.5629 Fax: 250.387.1696
Email: info@oipc.bc.ca

If you request a review, please provide the OIPC with a copy of your original request, a copy of the BCER's response, and the reasons or grounds upon which you are requesting the review. Further information on the complaint and review process can be found on the OIPC website: <https://www.oipc.bc.ca>. Please write FOIIntake@bc-er.ca, if you have any questions regarding your request or require any further clarification.

Sincerely,

D. Keough

BC Energy Regulator

Attachments: IROC-2026-0305-62 - BCER.pdf

Hello,

Please find the invoice for the Indigenous Resource Opportunities Conference tradeshow booth attached. I also had the organizer fill out of the EFT form.

The coding should be to 167 or 185 depending on if the Public Trust budget has been transferred yet.

Let me know if you need anything else.

Thanks!

Justine

Hello,

Thank you for your support of the Indigenous Resource Opportunities Conference!

Please find our invoice attached, payment is due upon receipt.

Payment options are at the bottom of the invoice, and I am also attaching our banking information should you decide to pay via EFT. I have copied our accounting department (Becky Pitre) if you need any assistance in paying or wish to send confirmation of payment.

Please note we have recently changed suites within the same building, and cheques should be sent to **Suite 450**. Please update your records.

Best regards,

Izzy

EFT DIRECT DEPOSIT APPLICATION FORM

For British Columbia Energy Regulator Supplier User Only

DIRECT DEPOSIT INFORMATION

- Do not change or close your bank account before requesting a change with this form. Please allow up to 2 weeks for processing. Changing or closing your account before requesting a change may result in payment delays.
- Only an application signed by the registered supplier or authorized supplier representative will be accepted for processing.
- Your Direct Deposit information will remain in effect until you update the information by submitting a new Direct Deposit Application form.
- Complete Part 1 through 3 and email to: Finance@bc-er.ca

DIRECT DEPOSIT – Q & A's

Q	Will Electronic Funds Transfer (EFT) payments cost me anything?	A	No. We do not charge a fee for processing payments via EFT.
Q	What about bank charges?	A	Bank charges may apply depending on your bank and the type of account. However, electronic deposits typically have lower banking fees than cheque deposits. For more information, check with your bank.
Q	Will the bank hold my funds?	A	No, unlike a cheque which has to clear the originating bank, an electronic deposit is considered a cash deposit to your account and the funds are available for use immediately.
Q	Can the Regulator find out my banking information?	A	No. Banks cannot release information to a third party without written permission or a court order. The Regulator cannot access your bank balance, transactions, and other banking information.
Q	Why provide an email address?	A	We require an email address so we can send you a statement of payment notification.
Q	What is a remittance advice?	A	A remittance advice is sent to your email to notify that payment has been released. It is sent approximately two business days before the payment appears in your bank account.
Q	What are the benefits of an electronic deposit ?	A	Security : No risk of a cheque getting lost or stolen in the mail or during handling on its way to the bank. Convenience : No need to visit the bank to make a deposit or to visit LDB head office for cheque pick-up. Speed : No delay while cheques are in the mail or waiting to be deposited. Funds are put directly into your account and are available immediately. Privacy : Signing up for EFT only permits the Regulator to deposit funds. Your bank account remains completely secure and confidential.
Q	Can the Regulator take money from my account?	A	No, the Regulator can only deposit money to your account.

Subject: RE: Global Energy Show Roundtable Invitation

Hello Michelle,

Thank you for your message and I'd be very happy to confirm your participation on the Pipelines panel. Please find a reminder of the session details below.

For next steps, you will shortly receive an onboarding email from our Speaker Management Platform, inviting you to log in and update your speaker profiles (bio, photo, mobile number and any contracts that should be cc'd on your communications).

I will then be in touch to arrange a virtual panel briefing for the speakers and moderator 2-3 weeks out from the event.

If you need any thing else from me at this stage. Please do not hesitate to contact me.

Session details:

Pipelines & Pathways: Canada's Last Big Test for Energy Credibility

Pipelines underpin Canada's energy system, enabling export revenue, stabilizing prices, enabling CCUS integration, supporting petrochemical growth, and anchoring industrial competitiveness. Yet new pipeline development has become the defining test of Canada's infrastructure credibility. As carbon pricing frameworks evolve and the oil sands decarbonization pathways advance, investors, Indigenous partners, and shippers are watching whether Canada can deliver major infrastructure in a climate-aligned world. This session examines the policy clarity, emissions strategy integration, and regulatory certainty needed to attract long-cycle capital. It asks a simple but crucial question: If Canada cannot demonstrate it can build pipelines when needed, will investment and influence simply move to other jurisdictions?

Attendee Insights: Delegates hear directly what stakeholders now view as non-negotiable: credible emissions pathways, CCUS readiness, predictable regulatory processes, and political durability over the life of the asset. They leave with a realistic sense of whether Canada is entering a new era of infrastructure delivery — or a period of structural constraint.

Date & Time: Wednesday June 10, 15 PM – 1:55 PM

Panelists:

- Tracy Sletto, CEO, Canada Energy Regulator
- Jason Balasch, Vice President, Business Development and Commercial Services, Trans Mountain
- Michelle Carr, CEO, BC Energy Regulator

Moderator: Heather Exner-Pirot, Senior Fellow and Director of Energy, Natural Resources and Environment, Macdonald-Laurier Institute

Kind regards,
Emelie

Subject: Speaker Invitation - Indigenous Resource Opportunities Conference - Michelle Carr

Dear Michelle,

I hope you are well! On behalf of the BC Indigenous Resource Opportunities Conference (IROC), I am pleased to share the attached formal invitation to join us as a speaker at the upcoming 10th-anniversary event June 3-5, 2026, in Nanaimo. The session will also feature the President and CEO of BC Hydro, Charlotte Mitha, and will be Moderated by Tamlyn Botel, Senior Director, Regulatory Engagement and Social Impact, C3 Alliance. We also have a pending invitation to BC Minister of Energy and Climate Solutions, Hon. Adrian Dix.

We were truly grateful for your participation as a speaker at IROC last year, and would be thrilled if you are available to join us again.

We look forward to the possibility of welcoming you to the stage and hope to hear from you at your earliest convenience. Please don't hesitate to reach out if you have any questions.

Kind regards,

Logan

Hi Geoff,

FYI – we got a space for IROC! I'm glad we held out on the sponsorship option.

Were you thinking staff from Kim's team would attend? If so, I can reach out and confirm logistics for the event.

Thanks!
Justine

Hi Justine,

Thanks for your patience. I am pleased to confirm a booth has become available for BCER!

If you are still happy to proceed I will use the commitment form previously provided and send further onboarding information and an invoice. Please could you kindly confirm by end of day April 29.

Many thanks,

Izzy

Hi Justine,

Thanks so much for sending through your commitment form. Unfortunately, all exhibitor booths are fully booked, but you are welcome to join the [waitlist](#) and we will reach out if space becomes available.

I also wanted to flag that several of our sponsorship packages include an exhibitor booth (Silver level and above). We currently have a small number of those opportunities available, so please let me know if you'd like more details or want to explore that option.

I'm always happy to connect if you'd like to talk through possibilities or have any questions. We will be in touch in any exhibitor booths open up!

Best regards,

Izzy

Hi Justine,

Thanks for reaching out and your interest in the Indigenous Resource Opportunities Conference!

Yes, we do have exhibitor spaces available for any organizations. The cost is \$1,650 and includes 2 registration passes.

We have a small number of booths left, to confirm a spot, kindly return the commitment form attached to this email.

If you have any questions or would like to discuss further, please don't hesitate to reach out.

Best regards,

Izzy

Conference Attendance Request

This checklist ensures all conferences attended on behalf of the BCER align with the organization's mandate and strategic priorities. Conference attendance is considered a business investment that must demonstrate value to the organization and the public.

Conference Name: Indigenous Resources Opportunities Conferences Location (City / Virtual): Nanaimo, BC Dates: June 3-5, 2026 Host Organization: C3 Alliance	Cost Estimate: Registration: \$1650 Travel: \$1000 Other: Swag (price tbd) Total: \$26500 + swag
Proposed Attendee(s): Geoff Turner Justine Johnson	
Request Reviewed By:	
Description The Indigenous Resource Opportunities Conference (IROC) is committed to celebrating accomplishments and fostering meaningful, equitable partnerships that support Indigenous-led economic participation in B.C.'s Natural Resource Sector. IROC is intended to facilitate building enduring partnerships between Indigenous communities and the resource sector through sustainable and respectful resource development. By building these relationships, IROC seeks to promote inclusivity, self-determination, economic empowerment, and the protection of Indigenous rights and culture at all stages of resource development.	
Guiding Principles ☒ Delivers measurable value to regulatory effectiveness or organizational capability ☒ Aligns with organizational priorities ☐ Supports knowledge sharing across the organization ☒ Addresses external understanding of the BCER's mandate and regulatory scope	
Alignment to Strategic Priorities ☐ Supports workforce development or staff learning ☒ Advances Indigenous participation or staff understanding of Indigenous perspectives ☒ Promotes community wellbeing, relationship-building or information-sharing ☐ Enhances public or operational safety knowledge ☐ Supports environmental stewardship, methane reduction or innovation ☐ Contributes to regulatory modernization	
Audience	

☒ Audience is clearly defined ☐ Attracts future employees or supports workforce development ☒ Encourages informed dialogue on the BCER's regulatory oversight ☒ Opportunity for staff to network with industry leaders, subject matter experts or relevant regulatory bodies
Visibility
☐ Keynote, panel or speaking opportunity ☒ Exhibitor booth ☐ Opportunity for positive media and/or social media coverage
Value & Accountability
☒ Clear connection to the BCER's mandate and priorities ☒ Demonstrates tangible organizational benefit ☐ Knowledge transfer planned (e.g., staff presentation, Energy Exchange blog post) ☒ Hosted by a reputable organization ☒ Demonstrates fiscal responsibility (costs are reasonable and justified)
Recommendation
Decision: ☐ Approved ☐ Not approved ☐ Deferred
Comments

Commented [JJ1]: I think session proposals are now closed but I can follow up and see if there are any opportunities.

Subject: Updated Purchasing Directives from Premier David Eby

Crown Agencies Secretariat

Elenore Arend
Associate Deputy Minister

Dear Crown Board Chairs, Chief Executive Officers, and Chief Financial Officers,

Today, Premier David Eby issued new purchasing directives to core-government, crown corporations, and health authorities further excluding U.S. suppliers as part of BC's response to the U.S. tariffs. Please see the attached letter from the Premier specific to Crowns.

You will note these directives are to be implemented 'where viable.' This means legal, financial and operational impacts are to be taken into consideration when determining whether an action is viable.

Information to support the implementation of this directive, including the process for exceptions and FAQs, is available on the [B.C. Procurement Directives Teams site](#). If you have any questions, please reach out to the Ministry Executive Financial Officer or Assistant Deputy Minister of Corporate Services in the Ministry responsible for your organization.

Your cooperation and prompt action on these measures are appreciated as we navigate this period of adjustment and uncertainty.

Sincerely,

Elenore Arend

Associate Deputy Minister

Crown Agencies Secretariat

<https://crownagencies.fin.gov.bc.ca/>

MEMORANDUM

TO: Board Chairs of Crown Agencies Listed in Schedule A
DATE: April 10, 2025
RE: Additional Tariff Response Measures

In further response to the imposition and continuing threat of tariffs by the U.S. government, I am directing your organization to implement additional measures.

In addition to my letter issued February 1, 2025 (and reinstated on March 4, 2025), directing your organization to exclude U.S. suppliers from new purchasing activities, effective immediately and until further notice, you are directed to implement the following additional measures:

- Exclude goods and services from U.S. suppliers under existing contracts with U.S. suppliers, where viable; i.e., switch suppliers, change purchasing allocations or delay purchases.
- Exclude goods and services from U.S. suppliers under the BC government's goods and services catalogue, existing Corporate Supply Arrangements and Multi-Use Lists, where viable; i.e., switch suppliers, change purchasing allocations or delay purchases.
- Cancel subscriptions to U.S. publications and non-essential software, where viable.
- Avoid all non-essential travel to the U.S.; i.e., cancel planned travel to meetings and conferences and avoid virtual attendance at U.S. hosted events.
- Avoid renewal of, and pause participation in, U.S. industry and related associations, where viable.
- Develop mid and long-term strategies to reduce dependence on goods and services from U.S. suppliers.
- "Where viable" is an assessment of legal, financial, operational and other reasonable considerations in the circumstances.

We will continue to work collaboratively with you on implementation. I appreciate your cooperation and prompt action, recognizing that implementing these actions will require careful consideration and may impact your organization's operations.

Sincerely,

A handwritten signature in black ink, appearing to be "David Eby", written over a circular stamp.

Subject: Invitation to 2026 Halfway River Group Trade Show

Dear Michelle Carr, Sean Curry, Peter Robb, Sara Dickinson, and remaining team:

The Halfway River Group is hosting a trade show on Tuesday May 26th, 2026 in Calgary at the Sheraton Suites Eau Claire Hotel. We are requesting that BC Energy Regulator attends with the appropriate representatives who would benefit from enhancing their knowledge of the Halfway River Group and to demonstrate your support for the Halfway River First Nation.

Halfway River First Nation's Chief and Council will be in attendance at the 2026 trade show alongside our Halfway River First Nation businesses and equity investments. To further develop your relationship with Halfway River First Nation, please attend this important venue.

The trade show will be open from 11:00 am to 4:00 pm in the Wildrose Ballroom of the Sheraton Suites Eau Claire Hotel and includes booths from the Halfway River Group of Companies. Staffed with representatives from each organization, this will provide an opportunity for you to become informed of our services. Appetizers and refreshments will be served.

To understand how the Halfway River Group benefits the Nation, share information on Tsaa Dunne Za Energy and to seek clarity on any questions that you may have, we are holding a separate presentation in the Wildrose South Ballroom at 1:00pm. Please include with your RSVP any questions or topics that you would like the Halfway River Group to address in this session.

Your attendance is required to make this event a success. We recognize that this letter has been addressed to a select group; however, a formal electronic invitation will be distributed separately to manage and confirm your full list of attendees. Please use this electronic invite to RSVP by April 28, 2026, and include all individuals who will be attending from your organization. We look forward to welcoming you on Tuesday, May 26, 2026.

Event Location: Sheraton Suites Eau Claire, 255 Barclay Parade SW, Calgary AB, T2P 5C2

Time: Tuesday May 26th, 2026 at 11:00 am – 4:00 pm

1:00pm: Opening Prayer, Halfway River Group Presentation, and Panel Discussion

Hi Geoff,

Do you have a booth space preference? I was thinking either space 2028 or 2026?

Here is the floorplan: [Global Energy Show 2026 | Floor Plan](#)

Thanks!
Justine

Subject: [SUSPECTED SPAM] RE: BCER x Global Energy Show Canada

Hey Justine,

That is great news!

Next steps are easy, please send the below info and I will prepare an e-sign agreement for review/signature:

Legal Company Name:

Exhibiting Name:

Billing Address:

Primary Contact: (this is who will be responsible for day to day operations of the booking)

Primary Contact Title:

Primary Contact Email:

Primary Contact Phone:

Signatory contact/title if different than primary:

Once you sign off on the booth space, we will send over the exhibitor portal info with the website update, registration of staff and any other booth décor items you may wish to purchase.

Did you have a certain booth space in mind that I can place on hold while we complete the agreement?

Let me know if you have any questions!

Brittany LaBrosse

Hi Brittany,

I'm just in the final steps of finalizing our participation in the event and I'm wondering what next steps are? We're interested in the 100sf hard shell. Should I fill out the form on the website?

Thank you,
Justine

Subject: RE: BCER x Global Energy Show Canada

Hey Justine,

I hope that spring is off to a great start!

Confirming that the pricing details shared are still correct.

Attached is the current floor plan- as you can see there has been a lot of inventory booked since our last meeting.

Our VP, David Ghoris, has met with Michelle and as far as I am aware, has been invited to the conference.

Below is updated info on both the Executive Conference and Energy Influencer Conference:

[Executive Conference:](#)

Canada is entering a pivotal decade as global demand for secure, low-emissions energy accelerates, driven by geopolitical fragmentation, rising AI-related electricity needs, and major shifts in global supply

chains. Under Prime Minister Mark Carney, Canada is positioning itself as a reliable supplier of energy and critical minerals, backed by policies aimed at enabling LNG, nuclear, carbon management, and clean power infrastructure at scale. The defining challenge now is execution—building major projects and expanding grid capacity fast enough to compete for global investment and anchor Canada's role in the next energy order.

[Energy Influencer Conference:](#)

Energy Influencers conference is set up into three themed theatres focusing on Oil & Gas, New Energy and AI & Data Centres. The program features several learning formats with 2/3 of the program made up of curated content including panel discussion, fireside chats, keynote presentations with the remaining third dedicated to technical talk from our open call for abstracts.

At the centre of the theatres is our Influencer Centre Court, a dedicated hub where speakers and delegates will be able to network and collaborate along with access to lunch and refreshments throughout the day.

Please let me know if there are any questions or further information I can share with you.

Kind regards,

Brittany LaBrosse

Hi Brittany,

I hope you are doing well and my apologies for the delay in responding.

I'm wondering if the pricing you sent earlier still stands? I'm hoping to get a final decision from our leadership team by the end of this week.

I also noticed there is a leadership roundtable focused on major projects and permitting timelines and was wondering if our Commissioner and CEO, Michelle Car was invited to participate? My apologies if your team has already reached out to her but I just want to confirm.

Thank you,
Justine

Hi Justine,

I hope you are doing well- hard to believe we are at the end of February!

Wanted to connect regarding the info shared for the Global Energy Show Canada. As we continue planning the program and confirming partners, it would be helpful to understand where BCER is in its internal review and whether there is a preferred direction or level of involvement you're considering for 2026.

If there is any additional context, clarification, or supporting information that would help your team with decision-making, I'm happy to provide it.

Thanks again for your time and engagement so far, and I look forward to hearing how you'd like to proceed.

Kind regards,

Brittany LaBrosse

Subject: BCER x Global Energy Show Canada

Hello Justine,

I hope you have had a great January! Wanted to ping this back to the top of your inbox to see where approvals are in your calendar for BCER events in 2026.

About the Global Energy Show Canada 2026

The Global Energy Show Canada is North America's leading energy event, bringing together the entire energy value chain under one roof. From June 9–11, 2026, in Calgary, this premier exhibition and conference will unite global decision-makers, innovators, and stakeholders to address the most pressing challenges in energy transition and security.

The event spans the full spectrum of energy systems—oil sands, natural gas and LNG, hydrogen, petrochemicals, electrification, nuclear, critical minerals, and digitalization/AI—creating a truly integrated platform for collaboration. This diversity reflects Canada's commitment to building a resilient, low-carbon future while maintaining energy security and affordability. Each segment plays a critical role: LNG and natural gas as transition fuels, hydrogen and electrification driving decarbonization, nuclear and critical minerals enabling clean power and advanced technologies, and AI accelerating efficiency and innovation. Together, energy professionals will explore technology, investment, and policy pathways to

meet global energy needs, accelerate innovation, and define the role of every energy source in a resilient, low-carbon system.

When: June 9-11th, 2026

Where: Calgary, Alberta – BMO Centre, Stampede Park

Conference Attendance Request

This checklist ensures all conferences attended on behalf of the BCER align with the organization's mandate and strategic priorities. Conference attendance is considered a business investment that must demonstrate value to the organization and the public.

Conference Name: CANECT WEST 2026 Location (City / Virtual): Calgary Dates: November 2026 Host Organization: CANECT	Cost Estimate: Registration: Free for speakers Travel: \$1600 Other: n/a Total: \$1600
Proposed Attendee(s): Tradeshow Representatives: n/a This conference does not have a strong tradeshow component. Booths are available. Speakers: TBD. Likely senior legal counsel, along with one of our SMEs.	
Request Reviewed By:	
Description CANWEST 2026 is a conference targeting environmental and compliance professionals. We participated in 2025, at the invitation of one of our Board members who is on the organizing committee. The 2 day conference focusses on environmental and compliance professionals from across Western Canada (though there were a large number in attendance from Ontario and Quebec last year), on topics ranging from compliance, to the use of qualified professionals, to furthering reconciliation, to contaminated site remediation.	
Guiding Principles ☐ Delivers measurable value to regulatory effectiveness or organizational capability ☒ Aligns with organizational priorities ☒ Supports knowledge sharing across the organization ☒ Addresses external understanding of the BCER's mandate and regulatory scope	
Alignment to Strategic Priorities ☒ Supports workforce development or staff learning ☒ Advances Indigenous participation or staff understanding of Indigenous perspectives ☐ Promotes community wellbeing, relationship-building or information-sharing ☒ Enhances public or operational safety knowledge ☒ Supports environmental stewardship, methane reduction or innovation ☒ Contributes to regulatory modernization	

Audience
X Audience is clearly defined X Attracts future employees or supports workforce development X Encourages informed dialogue on the BCER's regulatory oversight X Opportunity for staff to network with industry leaders, subject matter experts or relevant regulatory bodies
Visibility
X Keynote, panel or speaking opportunity ☐ Exhibitor booth X Opportunity for positive media and/or social media coverage
Value & Accountability
X Clear connection to the BCER's mandate and priorities ☐ Demonstrates tangible organizational benefit ☐ Knowledge transfer planned (e.g., staff presentation, Energy Exchange blog post) X Hosted by a reputable organization X Demonstrates fiscal responsibility (costs are reasonable and justified)
Recommendation
Decision: ☐ Approved ☐ Not approved ☐ Deferred

Subject: FW: 2026 UBCM Convention - MACC Contacts Meeting 1 - Follow-Up and PPT

Hi Jess and Marisa,

We've received preliminary details regarding UBCM Convention meetings in September: MACC staff-level meetings will be held virtually the week prior to the Convention, from Tuesday, September 8 to Friday, September 11.

- Minister meetings that Executive members may support will remain in-person during UBCM Convention, from Monday, September 14 to Friday, September 18.
- Both the Minister and Staff meeting request portals will open on May 13.
- The Minister meeting request site will close on June 24, with submitted requests shared with us shortly thereafter.

Accommodation planning note:

- Hotel availability is very limited due to FIFA events taking place at the same time.

- It may be helpful to hold a few hotel rooms until we have a clearer sense of how many in-person Minister meetings we're requested to support.
- Wendy has already booked a room for Michelle.

I'll keep this group updated as we receive requests and make sure we're coordinated with meeting notes and planning.

Thank you!
Justine

Subject: 2026 UBCM Convention - MACC Contacts Meeting 1 - Follow-Up and PPT

Thanks everyone for joining our first UBCM Convention Ministry, Agency, Commission, and Corporation (MACC) Contacts Meeting today!

In case you missed it or if you'd like to refresh your memory, the PowerPoint and meeting recording are now available on the [MS Team](#) (Ministries, Agencies, Commissions, and Corporations Channel -> Shared tab -> MACC_Overview_Meetings folder).

As discussed in the meeting, as part of a new approach to allow broader provincial and UBCM member participation, and to reduce travel costs, **MACC Staff-level meetings will be held virtually the week before Convention from Tuesday, September 8 to Friday, September 11.** This approach will allow more subject matter staff to attend where applicable, enabling valuable conversations at the technical level. MACCs are encouraged to accept as many staff-level meetings as possible – both for Convention as well as throughout the year.

Please let me know as soon as possible if your organization is based in Vancouver and intends to still hold staff meetings in-person during the week of Convention rather than virtual.

Minister meetings will remain in-person during UBCM Convention, Monday, September 14 to Friday, September 18.

Both Minister and Staff meeting request sites will open on **May 13**. The Minister site will close **June 24**, and a list of requested meetings will be provided to you shortly after that date. The Staff site will close on **August 5**.

More detailed process information will be shared at the next MACC Contacts meeting, which will focus on Premier, Cabinet Minister, and MACC Staff meetings. We will send out a meeting invitation for it soon - stay tuned!

If anything comes up in the meantime, we're here to support and answer any questions.

Thank you,
~ Provincial UBCM Convention Team

Conference Attendance Request

This checklist ensures all conferences attended on behalf of the BCER align with the organization's mandate and strategic priorities. Conference attendance is considered a business investment that must demonstrate value to the organization and the public.

Conference Name: UBCM Convention Location (City / Virtual): Vancouver, BC Dates: Sept. 16-17, 2026 (tradeshow days) Host Organization: UBCM	Cost Estimate: Registration: \$3500 Travel: \$3000 Other: Swag (price tbd) Total: \$6500 + swag
Proposed Attendee(s): Geoff Turner Justine Johnson	
Request Reviewed By:	
Description The 2026 UBCM Convention brings together local government leaders from across British Columbia to strengthen their capacity to deliver real solutions at home. As the province's largest gathering of local elected officials and staff, the UBCM Convention serves as a hub for problem-solving, shared learning and collective advocacy. Delegates exchange best practices, examine emerging models in service delivery and explore innovative approaches. Through resolutions, debates and direct engagement with the Province, local leaders articulate the needs of their communities and influence policies and solutions.	
Guiding Principles	
☒ Delivers measurable value to regulatory effectiveness or organizational capability ☒ Aligns with organizational priorities ☐ Supports knowledge sharing across the organization ☒ Addresses external understanding of the BCER's mandate and regulatory scope	
Alignment to Strategic Priorities	
☐ Supports workforce development or staff learning ☐ Advances Indigenous participation or staff understanding of Indigenous perspectives ☒ Promotes community wellbeing, relationship-building or information-sharing ☒ Enhances public or operational safety knowledge ☐ Supports environmental stewardship, methane reduction or innovation ☐ Contributes to regulatory modernization	
Audience	
☒ Audience is clearly defined	

☐ Attracts future employees or supports workforce development ☒ Encourages informed dialogue on the BCER's regulatory oversight ☒ Opportunity for staff to network with industry leaders, subject matter experts or relevant regulatory bodies
Visibility
☒ Keynote, panel or speaking opportunity ☒ Exhibitor booth ☐ Opportunity for positive media and/or social media coverage
Value & Accountability
☒ Clear connection to the BCER's mandate and priorities ☒ Demonstrates tangible organizational benefit ☐ Knowledge transfer planned (e.g., staff presentation, Energy Exchange blog post) ☒ Hosted by a reputable organization ☒ Demonstrates fiscal responsibility (costs are reasonable and justified)
Recommendation
Decision: ☐ Approved ☐ Not approved ☐ Deferred

Subject: Conference Forms

Hi Sara,

Please find attached conference approval forms for Generate 2026 and the Global Energy Show. We're proposing Justine and I to look after the booth at generate (and noting that Kim is attending as a speaker). For the Global Energy Show, I'd like to get the ball rolling on the booth and hotel bookings but have to canvas my team to identify a second person to look after the booth with me (alternatively if we want to have someone from elsewhere in the organization attend as a developmental opportunity and help out with the booth that would also be an option).

Please let me know if you have any questions on these (we'll manage travel approvals separately once these are reviewed). Also any feedback on the request form itself would be welcome not that you're looking at them "in use".

Thanks

Subject: RE: Info for division meeting

Hi Lannea,

Here are a few updates from Kelly and I:

Local Government Meetings

Planning is underway for meetings with local governments, including the District of Squamish and the City of Campbell River. We are also preparing to proactively engage select regional districts that may be impacted by renewable energy projects.

Tradeshows & Conferences

The tradeshow season is well underway, with events in Fort St. John and Dawson Creek already completed. Our next event takes place this weekend in Dawson Creek. These activities are being coordinated with Internal Communications, with the intention of fully transitioning responsibility for this portfolio moving forward. A new conference checklist has been approved by Executive to guide our event participation, and we're working to finalize our event schedule for the remainder of the year.

Sponsorships

Work has begun on updating the BCER's sponsorship framework and identifying organizations and events to support in FY 2026–27.

Electronic Newsletter

A new platform has been selected to support the distribution of electronic newsletters and management of distribution lists. We are advancing through the next stages of the Privacy Impact Assessment (PIA) process and beginning platform onboarding.

Kelly, let me know if you think I've missed anything!

Thank you 😊

Hi Geoff,

Here are the conference forms for UBCM and IROC.

IROC:  [Conference Checklist_IROC.docx](#)

UBCM:  [Conference Checklist_UBCM.docx](#)

Once we have final approval, I can get us registered this week. Has Michelle been asked to speak at IROC? If not, I'm happy to reach out to see if there are any relevant panels she could participate in.

I have asked Kelly to work with Geri and Amy to develop a cost estimate for swag for Generate 2026, IROC, and UBCM, as well as a separate estimate for the Global Energy Show. I think we have existing inventory that Kelly can pull from but will need to reorder some items. For the Global Energy Show, I will ask Kelly to pull together a few options at different price points for your consideration.

Thanks!

Subject: CanREA Connects May 14 event

Hello BCER team and Amira,

Thank you very much for your participation in our May 14 CanREA connects event in Vancouver. We are thrilled to have Michelle speaking at the reception and have you present during our network meeting in the afternoon.

For those of you who are presenting at our network meeting, attached is a copy of the agenda. Unlike in December, we are not having a members-only portion, so you are welcome to come for the whole session if that would be of interest.

We can also have virtual presenters. Please let me know if you will have colleagues who would like to join online and we will set up a Team meeting.

- Registration for the BC Network meeting, 12-5pm:
<https://form.jotform.com/260646369313258>
- Registration for the reception, 5 -7pm (the comp code is: **COMP-BC2026**):
<https://renewablesassociation.ca/event/canrea-connects-british-columbia-spring-networking-reception/>

Thanks again and let me know if you have any questions!

Best,
Patricia

Patricia Lightburn
Director of Policy for British Columbia
Canadian Renewable Energy Association

On May 14 **CanREA Connects—British Columbia** will convene developers, utilities, Indigenous partners, investors and policymakers in Vancouver at a pivotal moment for the province's clean energy sector. As new procurements advance and market momentum builds, this reception supports alignment between policy direction and project delivery. **Join us** for focused networking with leaders shaping B.C.'s wind, solar and energy storage future.

Hi Geoff,

Here is the updated conference checklist with the cost estimate filled out for Generate 2026 and the Global Energy Show.

I am looking for the exhibitor registration fee now and will send it over once I have it.

Thanks!
Justine

Conference Attendance Request

This checklist ensures all conferences attended on behalf of the BCER align with the organization's mandate and strategic priorities. Conference attendance is considered a business investment that must demonstrate value to the organization and the public.

Conference Name: Global Energy Show Location (City / Virtual): Calgary, AB Dates: June 9-11, 2026 Host Organization: dmg events	Cost Estimate: Registration: \$8500 (Booth space) Travel: \$4000 Other: (TBC for swag) Total: \$12,500
Proposed Attendee(s): Geoff Turner 1x Strategic Engagement Staff Member	
Request Reviewed By: Sara Gregory	
Description The Global Energy Show is one of the largest annual energy sector focused conferences in Canada. The conference covers topics related to upstream oil and gas, pipelines, LNG and clean energy. Minister Dix is expected to speak at the event as part of the executive conference program. This is a high-visibility event within the energy sector with a large number of BCER regulated entities expected to be in attendance.	
Guiding Principles ☐ Delivers measurable value to regulatory effectiveness or organizational capability ☒ Aligns with organizational priorities ☐ Supports knowledge sharing across the organization ☒ Addresses external understanding of the BCER's mandate and regulatory scope	
Alignment to Strategic Priorities ☐ Supports workforce development or staff learning ☐ Advances Indigenous participation or staff understanding of Indigenous perspectives ☐ Promotes community wellbeing, relationship-building or information-sharing ☒ Enhances public or operational safety knowledge ☐ Supports environmental stewardship, methane reduction or innovation ☐ Contributes to regulatory modernization	
Audience ☐ Audience is clearly defined ☐ Attracts future employees or supports workforce development	

X Encourages informed dialogue on the BCER's regulatory oversight X Opportunity for staff to network with industry leaders, subject matter experts or relevant regulatory bodies
Visibility
☐ Keynote, panel or speaking opportunity X Exhibitor booth ☐ Opportunity for positive media and/or social media coverage
Value & Accountability
X Clear connection to the BCER's mandate and priorities ☐ Demonstrates tangible organizational benefit ☐ Knowledge transfer planned (e.g., staff presentation, Energy Exchange blog post) X Hosted by a reputable organization X Demonstrates fiscal responsibility (costs are reasonable and justified)
Recommendation: Attend tradeshow
Decision: ☐ Approved ☐ Not approved ☐ Deferred

Hello Michelle,

I hope you have been well since we last spoke! I know your team has been incredibly busy over the past few months. Congratulations to everyone involved on getting the Renewable Energy Projects Regulation finalised.

On May 14, we will be hosting our next [CanREA Connects](#) reception in Vancouver. Your team has already kindly agreed to participate in our members meeting in the afternoon. On behalf of CanREA I would like to extend an invitation for you to deliver the keynote address at the evening reception.

We would love the opportunity to hear from you on how the regulatory landscape has evolved and celebrate some major milestones that we have achieved together over the past year.

Sincerely,
Patricia

Patricia Lightburn
Director of Policy for British Columbia
Canadian Renewable Energy Association

On May 14 **CanREA Connects—British Columbia** will convene developers, utilities, Indigenous partners, investors and policymakers in Vancouver at a pivotal moment for the province's clean energy sector. As new procurements advance and market momentum builds, this reception supports alignment between policy direction and project delivery. **Join us** for focused networking with leaders shaping B.C.'s wind, solar and energy storage future.

Copy of Your In-Person Tickets for Spark Women's

Leadership Conference 2026

You have successfully registered for Spark Women's Leadership Conference 2026! The order details are below. Please keep this email as a receipt for future reference.

Event will be ready on web and mobile soon!

You will be notified once the event is ready on the Whova Web and Mobile apps. You will then be able to access the agenda and network with other attendees.

Message from the organizer

Thank you for your registration. **If you have registered multiple participants from your organization**, please forward a copy of this email to them for their records.

*We are looking forward to seeing our 2026 Spark Women's Leadership Conference attendees strengthen their mindset, skillset, toolset, and reset strategies to become **360° Ready!** Please check our website, www.sharingthespark.com, or follow us on Facebook and Instagram, @sharingthespark, for any announcements or updates to the agenda.*

Event Details:

Spark Women's Leadership Conference

October 7 & 8, 2026

Welcome & Conference Opening: October 7, 2026 at 8:30am

Pomeroy Hotel & Conference Centre

Approximately 1 week prior to the event, you will receive an email welcoming you to the Whova platform. Log in to the platform, build your profile, and start to engage with other Sparklers! We selected the platform because of its engagement aspects. We want you to gain as much as you can from the event, and you don't

need to wait for the start of the program at 8:30am on October 7th to start engaging! We will be utilizing the platform to create engagement between the live and virtual attendees! The platform will also give you access to session videos post-Spark for 30 days.

If you have any questions related to registration, please contact registration@sharingthespark.com. All other questions can be directed to info@sharingthespark.com

Thank you to PPRD Peace River Regional District! All registration-processing fees (credit card charges, etc) have been graciously covered by PPRD Peace River Regional District for the 2026 event to ensure that your full registration fee goes towards program development for Spark.

PEACE RIVER REGIONAL DISTRICT

The Peace River Regional District is committed to supporting initiatives that strengthen our communities, foster leadership and contribute to the growth of northeast BC. Investing in leadership and professional development is essential for building resilient individuals, businesses and organizations, and we are proud to support the Spark Women's Leadership Conference in its mission to empower and inspire.

Share with your friends and colleagues

Help us get the word out about Spark Women's Leadership Conference 2026! Share that you're going to the event and encourage your network to register.

Hi Justine – For your BN and FYI, the BCER will be accepting this invitation.

s22

I'll have someone from the regulatory team attend instead. I'll get you a name for your BN asap.

Subject: EMA of BC meet your Regulator Breakfast Panel - Thursday April 16 @ BCIT downtown

Hello all,

Hope this email finds you well.

I got your email address from Kate Ocampo from Fortis. I am emailing on behalf of the [Environmental Managers Association of BC](#) (EMA of BC), an environmental nonprofit organization that puts on technical and networking events for the environmental industry in BC. We are holding our annual Meet Your Regulator Breakfast Panel at [BCIT](#) in downtown Vancouver on Thursday, April 16, 2026. The panel typically has 4-6 regulators from different levels of government (local, provincial, federal). Each year, we aim to include regulators that we feel the attendees would be most interested in, usually due to changes in environmental regulations and industry trends.

I am writing to inquire if 1-2 folks from BCER would be interested in serving on the panel?

Event information:

- Time: 07:30-09:30
- Typical attendees: consultants, environmental reps from industry (e.g., construction, YVR, Fortis, Seaspan other contractors), crown corps (e.g., BC Hydro), government representatives, environmental vendors (labs, soil disposal facilities, etc.)
- Attendance is free for panelists and includes a hot breakfast buffet
- Event moderated by EMA of BC board member (me). A pre-event call will be held between each panelist and the moderator for an introductory chat, and to come up with some questions ahead of time.
- No Powerpoint presentation required.
- Your participation:
 - Briefly introduce yourself and the area that you work in
 - Answer pre-prepared questions delivered by the moderator
 - Answer questions from audience members the day of (either verbally or via Slido)

Let me know if you are interested and/or would like to discuss this opportunity further.

Thanks,

-Miranda

Subject: Dawson Creek Tradeshow

Good afternoon,

I am putting out feelers to see if you, or any of your team would like to attend the 2026 Dawson Creek Tradeshow. The dates and times are as follows:

April 17: 5 – 8:30 pm

April 18: 10 – 2; 1 – 5; 3 – 7

April 19: 10-3; 3-5 (take down)

We have identified you, or your group as valuable SMEs that would be helpful to have at the tradeshow. If you are interested, please ensure you obtain approval from your supervisors as this is considered Over Time.

If you need rationale – please see below:

The 2026 Tradeshow Season is fast approaching. The Community Engagement and Communications teams are seeking participation from various groups around the organization. We have carefully considered each location and have anticipated potential questions and issues of the areas, to advise our staffing requirements.

We have identified certain groups due to activity in the area, public concerns and interests, and anticipated questions. It would be much appreciated if one of your team members could participate.

Rationale for Participation:

- **Direct Engagement:** The trade show attracts hundreds of attendees from throughout the Peace Region. Having our staff present allows for immediate, transparent discussions, fostering trust and enabling us to address specific questions on-site.
- **Enhanced Visibility:** Our active presence demonstrates our commitment to transparency and community involvement, reinforcing our role as accessible and responsive regulators.
- **Networking Opportunities:** The event facilitates connections with industry professionals, community members, and stakeholders, providing insights into current concerns and fostering collaborative relationships.
- **Efficient Issue Resolution:** Addressing inquiries directly at the trade show minimizes the need for follow-up communications, streamlining information dissemination and feedback collection.

Benefits to the Organization:

- **Stakeholder Trust:** Engaging face-to-face with attendees enhances our reputation for openness and responsiveness, building stronger community trust.
- **Operational Insights:** Interactions at the trade show can reveal emerging issues and public sentiments, informing our policies and operational strategies.

- **Resource Optimization:** Direct engagement reduces the volume of inquiries post-event, allowing our teams to allocate resources more effectively.

Overtime incurred by staff comes out of the staff department budget, along with any travel.

If you have any staff who are interested in attending and you can find it in your budget to send them, please let me know so I can begin crafting a schedule and reach out to them directly.

Thank you for your consideration on this matter.

If you would like to attend, please let me know.
and my aim is to get the schedules out the week of March 30.

Subject: RE: Generate 2025 Sponsorship Opportunities – now open!

Hi Geoff,

I have to submit an organization description for the Generate 2026 conference as part of registration. I'm wondering if the PAB description will work for this? Or do we have updated boilerplate messaging I should use?

The British Columbia Energy Regulator oversees the full life cycle of energy resource activities in B.C. from site planning to restoration. This includes oil, gas, geothermal, hydrogen, ammonia, methanol and renewable energy projects.

Let me know.

Thanks!

Great timing! I actually had an email drafted to let you know that registration is now open. I'll reach out to the organizers to see if we can reserve a specific booth location – we typically aim for a spot near the coffee station since it usually draws the most traffic.

I'll get started on this now and loop in Amy Fraser so she's aware that we'll need swag.

Thanks!

Subject: Generate 2025 Sponsorship Opportunities – now open!

The Clean Energy Association of British Columbia is honoured to host Generate 2026 in the traditional, unceded territories of the xʷməθkʷəy̓əm (Musqueam), Sk̓wx̓wú7mesh (Squamish), and səliłwətał (Tsleil-Waututh) Peoples.

Generate 2026 returns at a defining moment for British Columbia's clean energy sector. The two-day conference convenes developers, First Nations partners, government representatives, utilities, investors, academics, and industry leaders for two days of high impact dialogue and strategic connection.

With the 2025 Call for Power complete and Electricity Purchase Agreements expected in early 2026, the sector is entering a new phase of development and investment. Generate 2026 provides direct access to the leaders shaping what comes next.

About the Event

Guided by the theme "Powering Growth", Generate 2026 will feature two days of dialogue, panels, and networking designed to strengthen connections, share best practices, and highlight the opportunities shaping BC's clean energy future.

Generate 2026 Event Details

Date: May 25+26, 2026

Location: Westin Bayshore Hotel, Vancouver

Plenary meeting room: Bayshore Grand Ballroom

Exhibit tradeshow space: Bayshore Ballroom Foyer

Sponsorship Opportunities

Sponsorship positions your organization at the centre of this conversation. This year's sponsorship packages are designed to maximize visibility and engagement

- **Panelist speaking opportunities** included at higher tiers
- **More value across all levels:** additional conference passes and access to attendee contact lists* (**subject to attendee opt-in*)
- **Exciting new ala carte sponsorship package*** – 20'w exhibit display space with exclusive use of new floor to ceiling Foyer LED wall.
 - **Available only to Patron, Terawatt and Gigawatt sponsors only*

Full details can be found on the sponsorship section of the [Generate 2026 conference website](#). Opportunities are limited and confirmed on a first secured basis.

Tradeshow Exhibit Booth Opportunities

Exhibiting at Generate2026 is a powerful way to raise your company's profile. Tradeshow booths are located in the ballroom foyer, directly outside the plenary space, ensuring high traffic. Many sponsors combine a tradeshow booth with their sponsorship package – to maximize

visibility and engagement. Visit the [Generate 2026 conference website](#) for full tradeshow details.

We look forward to welcoming you to the Generate 2026!

Hi Geoff,

Thanks for sharing the updated conference checklist. I'm wondering when the next CPOE meeting is? I checked the Energy Exchange page, and I don't see one until April 1st which doesn't work with our timeline for the Exec meeting.

Just to confirm, we're going to be presenting our sponsorship recommendations for the remainder of the fiscal year as well as the events and conferences for next fiscal?

Thanks!

When: February 26, 2026 10:30 AM-11:00 AM (UTC-08:00) Pacific Time (US & Canada).

Where: Microsoft Teams Meeting

Importance: High

Thank you Geoff for taking my call this morning. Andrew and I are available if you have any questions after talking to folk at BCER about this. Thanks, Genevieve

Hello Geoff,

Andrew and I are hoping you have time to jump on a call with us to have a little chat about someone from BCER possibly attending the upcoming world geothermal conference being

hosted in Calgary in June.

Please redirect me to someone else at BCER if this isn't your topic...but basically, we are wanting to discuss how BC is approaching participation at this conference. To us, it is looking like it'd be a good fit to have BCER represented at the BC table that is being sponsored by BC Hydro.

s16

In terms of cost to BCER it'd just be for the employee's flight and accommodation. The conference entrance is covered by the booth fee.

If this proposed time slot doesn't work would a call at either 1:30-2pm or 3:30-4pm work for you?

Thanks,

Genevieve St. Denis
Director, Regulatory Policy

Good afternoon,

On behalf of the Canada-Texas Chamber of Commerce and in partnership with the Consulate of Canada in Houston, we are excited to host a **Canadian Energy Company Showcase & Networking Reception** on **Monday, March 23, 2026**, from **5:00-6:30PM**, at the **Petroleum Club of Houston** located at **1201 Louisiana Street, 35th Floor, Houston, TX 77002**.

Join us for an exclusive evening highlighting innovative Canadian energy companies and welcoming senior US and Canadian energy dignitaries. This reception offers a unique opportunity to learn about the latest developments in the Canadian energy sector while connecting with industry leaders and peers. Whether you work in energy, business development, international trade, or simply want to strengthen your professional network, this event promises valuable insights and meaningful connections.

To RSVP, please click on the link within the attached formal invitation, or click on the following link here: [Canadian Energy Company Showcase & Networking Reception Tickets, Mon, Mar 23, 2026 at 5:00 PM | Eventbrite](#)

About the Global Energy Show Canada 2026

The Global Energy Show Canada is North America's leading energy event, bringing together the entire energy value chain under one roof. From June 9–11, 2026, in Calgary, this premier exhibition and conference will unite global decision-makers, innovators, and stakeholders to address the most pressing challenges in energy transition and security.

The event spans the full spectrum of energy systems—oil sands, natural gas and LNG, hydrogen, petrochemicals, electrification, nuclear, critical minerals, and digitalization/AI—creating a truly integrated platform for collaboration. This diversity reflects Canada's commitment to building a resilient, low-carbon future while maintaining energy security and affordability. Each segment plays a critical role: LNG and natural gas as transition fuels, hydrogen and electrification driving decarbonization, nuclear and critical minerals enabling clean power and advanced technologies, and AI accelerating efficiency and innovation. Together, energy professionals will explore technology, investment, and policy pathways to meet global energy needs, accelerate innovation, and define the role of every energy source in a resilient, low-carbon system.

Executive Conference Speakers as of today:

1. Adrian Dix, Minister of Energy and Climate Solutions, British Columbia
2. Musabbeh Al Kaabi, CEO, Upstream, ADNOC
3. Ehren Cory, CEO, Canada Infrastructure Bank (CIB)
4. Jon McKenzie, President & CEO, Cenovus
5. Hon. Rona Ambrose, Deputy Chairwoman, TD Securities
6. Luke Schauerte, CEO, Woodfibre LNG
7. Selena Basi, VP Corporate Relations, Woodfibre LNG
8. Chana Martineau, CEO, Alberta Indigenous Opportunities Corporation (AIOC)
9. Alex Petre, CEO, Deep Sky
10. Chris Doornbos, President, E3 Lithium
11. Hon. Grant Hunter, Minister of Environment and Protected Areas, Alberta
12. Hon. Scott Moe, Premier of Saskatchewan
13. Girish K. Saligram, President & CEO, Weatherford
14. Hon. David M. Wells, Senator of Newfoundland and Labrador

Energy Influencer Conference as of today:

- Danielle Gifford — Managing Director, AI & Advanced Analytics, PwC

- Brendan Cooke — Head of North America CCUS Research, Rystad Energy
- Kirstie Boyle — CEO, Envirosoft Corporation
- Brian Wagg — Director, Business Development, C-FER Technologies
- Aaron Foyer — Vice President, Oriennia
- Selena Basi — Vice President, Corporate Relations, Woodfibre LNG
- Lauren Savoie — President, PTAC

Sent: Monday, January 26, 2026 4:01 PM
To: NRS Connects WLRS:EX <NRSCconnects@gov.bc.ca>
Subject: Highlights from the 2026 BC Natural Resources Forum

Good afternoon,

The 23rd annual BC Natural Resources Forum concluded January 22 in Prince George on the territory of the Lheidli T'enneh First Nation. As western Canada's largest multisector resource conference, the forum brought together First Nations leadership, federal and provincial government, local government and industry to discuss shared opportunities, challenges and innovations shaping B.C.'s natural resource future.

This year's theme, Momentum for Continued Growth: Building B.C.'s Resource Future, reflected the sector's strong progress and evolving expectations around stewardship, reconciliation and investment certainty.

Along with Premier David Eby, seven provincial natural resource ministers attended:

- Adrian Dix – Energy and Climate Solutions
- Tamara Davidson – Environment and Parks
- Ravi Parmar – Forests

- Spencer Chandra Herbert – Indigenous Relations and Reconciliation
- Ravi Kahlon – Jobs and Economic Growth
- Jagrup Brar – Mining and Critical Minerals
- Randene Neill – Water, Land and Resource Stewardship

Ministers participated in a variety of stakeholder meetings and several keynote events. The [program](#) included sessions on renewable energy, benefit sharing agreements, major project development, critical minerals, forestry transition, energy regulation, BC Hydro system planning, competitiveness in B.C.'s natural gas value chain (from upstream to LNG), infrastructure resilience, talent development, and postsecondary innovation. These discussions underscored B.C.'s diversified resource economy, the central role of First Nations, and the opportunities emerging through clean energy expansion, global demand for critical minerals and LNG, and partnerships that advance shared economic, reconciliation and environmental outcomes.

Key approvals and milestones

Since last year's forum, B.C. has continued to strengthen the conditions for responsible sustainable natural resource development – advancing major projects while upholding strong environmental standards and deepening partnerships with First Nations. Highlights of key approvals and milestones include:

- Highland Valley Copper and Mount Milligan mine life extensions, supported by improved concurrent permitting and ongoing First Nations stewardship roles
- A memorandum of understanding between BC Hydro and Ksi Lisims LNG regarding the provision of electricity
- The signing of restoration agreements with Treaty 8 First Nations, strengthening cumulative effects management and joint environmental recovery
- The signing of term sheets with almost all First Nations on Phases 1 and 2 of the North Coast Transmission Line, another example of the Province working in partnership to unlock billions in private sector investment across the northwest
- Advancement of land-use planning (northwest and Gwa'ni), co-developed with First Nations to balance critical minerals, conservation and cultural values
- Boreal caribou recovery initiatives in the northeast and Elk Valley water improvements, delivered with First Nation partners

- Streamlined Permitting for Renewable Energy Projects (Royal Assent July 1, 2025) establishes the British Columbia Energy Regulator as the primary permitting agency for wind, solar and certain major transmission line projects
- Energy Statutes Amendment Act (Royal Assent November 27, 2025) to fast-track construction of the North Coast Transmission Line in partnership with First Nations, and to provide the tools to manage electricity provision for high-demand emerging industries like AI and data centres
- Infrastructure Projects Act (Royal Assent May 29, 2025) creates a framework to expedite the construction of critical infrastructure projects

These initiatives and many others support billions in investment and grow and diversify our economy. They also reflect actions on environmental safeguards, land-use planning processes, reconciliation, and cumulative effects management that reinforce investor confidence in B.C.'s regulatory environment, governance and commitment to both economic resilience and stewardship.

Modernizing permitting continues

Competing on the world stage means we must act with urgency and diversify our markets. Premier Eby emphasized the importance of strengthening competitiveness across all natural resource sectors, while recognizing forestry's central role and the pressures it continues to face. He highlighted that expanding access to new international markets, including increased opportunities in China and India, is essential to reducing reliance on the U.S. and supporting greater stability for all B.C. resource products.

Looking across the broader sector, the Premier underscored that dependable clean electricity, coordinated major project development, and regulatory clarity remain critical to enabling responsible resource development and maintaining B.C.'s competitive position in a rapidly changing global environment.

To meet the Premier's sense of urgency, the natural resource ministries are advancing towards an operational, landscape-based approach. This includes concurrent permitting practices, eliminating bottlenecks, expanding delegated authorities, introducing deemed authorizations for low-risk activities, and using digital tools – including AI – to speed up review processes while maintaining strong environmental protections. Examples like these are aligned with the Premier's message to industry to bring challenges forward immediately in order to create the predictable and timely permitting that is a core driver of B.C.'s

economic resilience.

To deliver these priority projects and initiatives, we want to acknowledge the extraordinary hard work, professionalism and commitment of NRS staff across ministries. These efforts have been central to advancing government priorities. In particular, the successful progress on files such as Highland Valley Copper and Mount Milligan mines reflects the skill with which teams have applied improved tools such as concurrent permitting and strengthened cross-ministry coordination to reduce bottlenecks.

Look West Strategy

The forum also highlighted growing momentum behind the [Look West Strategy](#) which targets \$200 billion in major project opportunities across mining, energy, clean technology, and transmission infrastructure. Key actions include:

- Preparing British Columbians for emerging jobs in critical minerals, clean energy, and infrastructure
- Building the North Coast Transmission Line to expand access to B.C.'s clean electricity
- Collaborating with the federal government and the Major Projects Office on the Northwest Critical Conservation Corridor, balancing mining investment with long-term conservation outcomes
- Reducing permitting timelines by 50% by 2030 and eliminating the backlog by 2035

This strategic direction is reinforced by the efforts to diversify B.C.'s export markets and reduce reliance on the United States, with a provincial target to double exports to non-U.S. markets over the next decade.

The 2026 forum reaffirmed that B.C.'s resource sector is entering a period of substantial opportunity – grounded in First Nations leadership, environmental stewardship, major project investment and modern, predictable regulation.

Together, our efforts are positioning British Columbia for long-term prosperity built on responsible natural resource development, reconciliation, climate aligned planning, and a globally diversified economy.

Sara and Peter,
Here is the Excel table with the events as mentioned in my earlier email.

I have highlighted the ones that I am going to budget for.

s13, s17

That should
provide the freedom required to have attendance at events that currently aren't
scheduled/known.

The NE will remain an important engagement area as it appears that the Call For Power 2 has
additional projects in the area.

Please feel free to fire questions my way.....or make comments.

If you'd like different wrap up of these please let me know and I'll put more information together.

Good timing Garth – as we have this Decision Note, where we'd like to move ahead with Option 1 – and immediately, see the three tradeshow in red font in the spreadsheet (External Event Schedule) – those are the ones we need to move on immediately, as they come up or have deadlines, within the next week and month.

Additionally, I'll build the Option 1 from this DN into the Business Plan.

Thanks,

Graham

Hi,

Can you please send me an email with a summary of the tradeshow that we want to move forward on (price and rationale please). Also, include the Chamber of Commerce costs with rationale on why we should continue being members (value).

Thanks,

Garth

Subject: BCNRF26 -Student Tradeshow Tour

Dear Exhibitors,

With the Forum just one week away, we're excited to share some important final details in this email.

NEW IN 2026! - Student Tradeshow Tour

Date: Thursday, January 22

Time: 12 – 2 pm

Post-secondary students will tour the BC Natural Resources Forum tradeshow to meet with exhibitors and learn more about career opportunities in the natural resource sector. We encourage exhibitors to engage with students and share insights and guidance about pathways into the industry.

Here are some example questions to help guide conversations with students.

- What program are you in, and what made you choose it? What are you enjoying about your program?
- What types of roles or opportunities are you hoping to explore after graduation?
- Is there a particular issue, project, or challenge in this sector that is of interest to you?
- What have you learned from being at this Forum?

Exhibitor Kit

- **Booth Number:** please see the attached map for your location.
- **Tradeshow & AV Orders:** You will find all these details on the first page in the PDF attached. Please note the deadline for AV orders is **January 15**.
- **Exhibitor Set up is from 1 – 4pm on Tuesday January 20, 2026.**

If you have any questions, please don't hesitate to reach out. We look forward to seeing you in Prince George next week!

Best regards,

Izzy

Subject: FW: BC Natural Resources Forum - Speaking Invitation

Hello Garth,

Sorry for all the emails, but letting you know that Tracy Sletto from CER has just confirmed and has spoken with Michelle (email thread below). Mike and Peter seemed mildly interested in the news of Michelle speaking, so looping them in as well.

Happy to work and support where we can – I emailed Garth to discuss a potential moderator. We are open to all ideas!

This was the original submission received to the BCNRF Advisory Committee:

Topic Area: *Energy Regulation - Nation-building projects*

Panel Proposal:

Speaker One: Tracy Sletto, CEO, Canada Energy Regulator

Speaker Two: Michelle Carr, CEO and Commissioner, BC Energy Regulator

And other senior federal officials with mandates touching topics to be discussed.

Relevance to the BC Natural Resource Forum:

Improving regulatory efficiency is consistent with the Government of Canada's commitment to reduce barriers to interprovincial trade and expediting nation building projects that will connect and transform our country. A panel that discusses the work to improve regulatory efficiency will be of interest to Forum attendees. CER will discuss regulatory reforms and our work to advance Reconciliation, including developing a systemic model for Indigenous involvement in regulatory oversight. Other agencies will discuss their roles in advancing nation building projects.

Cheers,

Sarah

Hi Sarah! I wanted to reach back directly to thank you for the invitation and opportunity to be part of the forum. I had a chance to speak with Michelle today at the BCER, and we'd like to make this happen 😊. We'll get this in the calendar...

If you and I don't connect before the new year, all the best to you and yours for 2026, and I'll look forward to the event in January!

Tracy

Some people who received this message don't often get email from sweber@c3alliance.ca. [Learn why this is important](#)

Hello Tracy (and James),

It was great to meet Tracy in Calgary recently!

I am writing in relation to the BC Natural Resources Forum and the proposal received to feature the Energy Regulation – Nation-building Projects panel with Tracy Sletto, CER and Michelle Carr, BC ER. This discussion on improving regulatory efficiency and advancing nation-building projects remains a priority for Forum attendees. A space has just opened up and we would be delighted to feature Tracy Sletto and Michelle Carr on **Wednesday, January 21**.

About the Event:

The 23rd Annual BC Natural Resources Forum (BCNRF) will be held **January 20 – 22, 2026**, at the **Prince George Conference and Civic Centre**. The conference theme this year is **Momentum for Continued Growth: Building B.C.'s Resource Future**. The program will highlight British Columbia's leadership in growth and inclusive development with positive outcomes across Canada. It will also showcase the importance of Indigenous partnerships, infrastructure investment, and responsible resource advancement to build investor and public confidence in Western Canada's contribution to a resilient national economy.

The BC Natural Resources Forum is the largest natural resource conference in Western Canada, with over 1,600 delegates and more than 700 unique organizations in attendance, including leaders from Indigenous communities. This year we have confirmed a fantastic slate of high-profile speakers and we hope that you might join us.

- BC Premier and 7 BC Cabinet Ministers
- President of the Tahltan Nation
- CEO, First Nations Natural Gas Alliance
- Chief Councillor of the Huu-ay-aht First Nations
- Chief of the Lheidli T'enneh First Nation
- President of the N̓anwak̓olas Council
- Leadership from dozens of First Nations Governments and major resource sector companies including **TransMountain**, Newmont, CN, **Woodfibre LNG**, **BC Hydro**, **LNG Canada**, **Tourmaline**, **Alta Gas**, Centerra Gold, **Enbridge**, **Innergex**, **PETRONAS**, the Council of Forest Industries, and our Patron Sponsor, **Rio Tinto**.

We truly appreciate the short notice and understand the scheduling challenges this may present. Please let us know at your earliest convenience if participation is possible, and if there are any logistical details we can assist with to make this work.

Thank you for considering this on such short notice. We greatly value your contribution to this important conversation.

Sincerely,
Sarah

Subject: BC Natural Resources Forum - Moderator

Hi Garth,

I wanted to get your thoughts on a moderator for Michelle Carr at the BC Natural Resources Forum. We have not heard back for CER as yet, but either way will want to confirm somebody soon. Should it be Michelle on her own, our suggested format would be either 7-8 minutes max at the podium with slides followed by 7-8 minutes moderated Q&A **or** use the time for a fully moderated Q&A.

Given the regulator's independent role, are there any guidelines around what type of organization could participate with her? I'd like to chat with you to walk through a few ideas we have. We generally have an eager group of people hankering for some time with the microphone!

I've attached a summary of attendees that are registered as of today.

Thanks very much!

Sarah

Subject: Re: BC Natural Resources Forum - Speaking Invitation

Hi all,

Of course, please see below:

Speaker Name: *Michelle Carr*

Topic Area: Energy Transition: *LNG, Oil & Gas*

Relevance to the BC Natural Resource Forum:

The unique single window regulator aspect for oil, gas, hydrogen, ammonia and most recently renewable energy has been enabled by the Renewable Energy Project Act (REPA) that received royal assent in May 2025. The BCER's existing expertise and technical regulations that will be applied to wind power projects to support comprehensive project oversight in the absence of an environmental assessment provides a significant change allowing for efficiencies that provide for growth in the resource sector throughout the province.

Michelle will speak to what makes the BCER successful as a single window regulator and the transformation the organization has undergone since the REPA received royal assent. This transformation is key to ensure there is a balanced regulatory framework that encourages responsible clean energy development that supports all BC communities and future resource development.

Speaker Name: *Tracy Sletto*

Topic Area: *Energy Regulation - Nation-building projects*

Panel Proposal:

Speaker One: Tracy Sletto, CEO, Canada Energy Regulator

Speaker Two: Michelle Carr, CEO and Commissioner, BC Energy Regulator

And other senior federal officials with mandates touching topics to be discussed.

Relevance to the BC Natural Resource Forum:

Improving regulatory efficiency is consistent with the Government of Canada's commitment to reduce barriers to interprovincial trade and expediting nation building projects that will connect and transform our country. A panel that discusses the work to improve regulatory efficiency will be of interest to Forum attendees. CER will discuss regulatory reforms and our work to advance Reconciliation, including developing a systemic model for Indigenous involvement in regulatory oversight. Other agencies will discuss their roles in advancing nation building projects.

Please don't hesitate to let me know if any further information is needed

Subject: Subject: Follow-Up: Coordination on Provincial Programming for CERAWeek 2026 - For investment attraction meetings (British Columbia)

Dear Will, Diana & Colleagues

Thank you for your engagement as we prepare for Canada's presence at **CERAWeek 2026 (March 23–27, Houston)**. Andrew Keenan and I wanted to follow up on our earlier communication and request an **MS Teams meeting at your earliest convenience**. Please propose a few time slots to help secure a meeting slot. Alternatively, Andrew and I have the following availability

- Thursday 12/4 2pm – 3 pm CST; 330pm – 500pm CST
- Friday 12/5 9am – 11 am ; 1 pm – 3pm CST
- Week of Dec 8th - 12th - Please propose your availability

Introduction

CERAWeek 2026 theme: “**Convergence and Competition: Energy, Technology and Geopolitics**”—focusing on **energy security, decarbonization, technology (AI, digitalization), and supply chain resilience**. These topics align closely with British Columbia’s leadership in clean energy, digital innovation, and sustainable resource development. We encourage BC to consider showcasing regional success stories and technology leadership under these themes.

Programming Opportunities

Attached is a **working draft of key themes** and the **Canada House & Innovation Agora overview**, which outlines:

- Speaking opportunities at **Canada House**
- Bilateral meetings and roundtables with senior officials and industry leaders
- Networking events, including the **Canada–Texas Chamber of Commerce Reception** and **Invest in Canada Dinner**
- Agora programming elements such as **Agora Studios, Voices of Innovation**, and **Technology Corridor**
- Canada House will serve as our **programming and networking hub**, featuring immersive storytelling, B2B meeting space, and curated events to spotlight Canadian leadership in energy innovation.

Action Required:

- Confirm your organization’s attendance plans
- Indicate interest in **investment attraction programming** and **targeted sectors**
- Share target customers for curated introductions

Next Steps

- **Programming Input:** Please send any ideas for provincial panels, announcements, or showcase opportunities.
- **Provincial Priorities:** Identify 2–3 investment project or shovel ready site selection in your region that we can support at CERAWeek.
- **Bi-weekly Updates:** We will increase coordination frequency in the new year.

If you have any questions or need clarification, please feel free to reach out to me directly via **email** or on my **cell at s22**

Subject: IMPORTANT CERAWEEK 2026 PASS DEADLINE AND PARTICIPATION SURVEY

Dear colleagues,

As part of our ongoing coordination for **Canada's presence at CERAWeek 2026 (March 23–27, Houston)**, please find below updated information regarding registration, discount codes, and programming opportunities.

CERAWeek by S&P Global remains the world's premier energy conference, convening over 10,000 participants from 2,300 companies across 90 countries, including 1,600 C-suite executives. This year, hotel availability will be especially limited due to the NCAA basketball playoffs occurring the same week in Houston. **Please note, that there have been significant changes to CERAWEEK 2026 Pass policy and We strongly encourage early hotel bookings—recommended downtown options are listed below.**

Important Updates on Pass Pricing and Government Discount Codes:**

- Executive Pass (includes access to both Executive and Agora programs):
 - USD \$8,000 until Dec 1, 2025
 - USD \$9,500 from Dec 2, 2025 to Jan 19, 2026
 - USD \$11,000 from Jan 20 to March 26, 2026
- **Government Discount Code: GOVT-EC26-XHALF** (50% off for provincial governments and municipalities only)
- Executive Pass Registration: <https://ceraweek.com/register.html>
- Agora Pass (Innovation Agora only):

- USD \$2,250 until Dec 1, 2025
- USD \$2,500 from Dec 2, 2025 to Jan 19, 2026
- USD \$3,000 from Jan 20 to March 26, 2026
- **Government Discount Code: GOVT-AG26-\$1750 FLAT** (flat rate of USD 1,750 for provincial governments and municipalities only)
- Agora Pass Registration: <https://ceraweek.com/agora.html>

****A valid government email address is required to use either discount code.** Please note that these codes are applicable only to provincial government and municipal officials.

****Please note for non government officials looking to purchase Agora Passes the costs for these passes up to Dec 1st is USD \$2250.00, and from Dec 2nd to Jan 19th the cost is USD \$2500.00, and from Jan 19th to March 26th the cost is USD \$3000.00**

Hotels in Downtown Houston

- [The Laura Hotel](#)
- [SpringHill Suites by Marriott Houston Downtown/Convention Center](#)
- [Hampton Inn Houston Downtown](#)
- [Homewood Suites by Hilton Houston Downtown](#)

Programming & Networking Opportunities:

- A working draft of key themes for both the Executive and Agora programs is attached, outlining areas where Canada's leadership can be profiled.
- A partial attendee list from last year is also attached to help identify potential contacts and global reach.
- *****SAVE THE DATE***The Canadian Consulate and Canadian Texas Chamber of Commerce will co-host a major networking event on Monday, March 10at the Petroleum Club of Houston, spotlighting emerging Canadian energy technology firms.**

CERAWEEK 2026 Survey

By completing this short survey, you will:

- Confirm your organization's attendance plans for CERAWeek.
- Indicate interest in participating in curated trade programming and VC meetings.
- Share examples of target customers you'd like to meet, so we can align introductions.

Your feedback is essential. It ensures that our programming reflects the needs of participating organizations and maximizes the value of your time at CERAWeek.

🔗 Please take a few minutes to complete the survey here: [-
<https://forms.gle/eS3huVBaMqVfXREq6>]

*** We also encourage you to share this survey with your trade association, industry partners, and colleagues who may be interested in attending CERAWeek or participating in our trade programming. Expanding the reach of this initiative will help us create stronger connections across the energy and innovation ecosystem, ensuring that organizations of all sizes have the opportunity to meet venture capitalists, explore new markets, and engage with potential customers. Thank you for helping us build meaningful connections and opportunities at CERAWeek. We look forward to your participation. ****

-
-
- If you are interested in **Investment Attraction meetings** with energy companies, please contact me at Edmond.Bastiampillai@international.gc.ca.
 - For **Canadian company programming and investor engagement**, reach out to Kasturi.Narayanan@international.gc.ca.
 - All other inquiries to HSTONTD@international.gc.ca Subject: CERAWEEK 2026
