**Re: Short Term Water Use Authorization**

**Authorization**

The BC Oil and Gas Commission ("The Commission") hereby authorizes KM LNG Operating Ltd. (the "permit holder") under Section 10 of the *Water Sustainability Act* to divert and use water for the purpose "oil and gas purpose" and "storage purpose", for the period from March 24, 2016 to March 23, 2018.

The authorized water sources and points of diversion (POD) are listed in the attached table titled The Supplemental Table.

**Conditions**

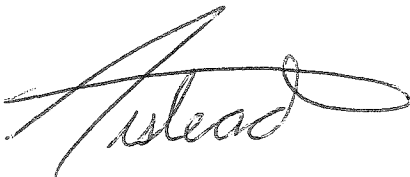

1. No instream works are permitted under this authorization.
2. A copy of this authorization must be available for inspection at the point of diversion and use location(s).
3. Water withdrawn under this authorization must only be used for the purposes of carrying out the oil and gas activities of the permit holder.
4. Water withdrawn under this authorization must not exceed the total volume per POD, as specified in the Supplemental Table.
5. Water must not be diverted or withdrawn from any beaver pond.
6. The permit holder must maintain accurate records of all water withdrawal activities throughout the term authorized. A digital spreadsheet has been sent to the applicant's email provided on the application. Water withdrawal records for each diversion point, including "0" values for months where no water was withdrawn, must be recorded monthly on the digital spreadsheet provided. The spreadsheet must be submitted to the Commission on a quarterly basis to [OGCWater.VolumeData@bcogc.ca](mailto:OGCWater.VolumeData@bcogc.ca) . Quarterly reports are due on or

before April 25<sup>th</sup>, July 25<sup>th</sup>, October 25<sup>th</sup>, and January 25<sup>th</sup>. Do not modify the digital spreadsheet as it is designed to be interpreted by Commission software. If a cell/field in the spreadsheet is not relevant to the authorized activity, leave it blank.

### Advisory Guidance

1. At any time, the Commission or the Minister responsible for the *Water Sustainability Act* may suspend short term water use previously authorized. Water use suspensions will remain in place until such time as the Commission or the Minister notifies permit holders that water withdrawals may resume.

The attached plan(s) and supplemental spreadsheet form an integral part of this authorization.
