Re: Approval for Changes in and About a Stream

Date of issuance: February 26, 2016

The Oil and Gas Commission hereby authorizes the holder under section 9 of the *Water Act* to make changes in and about streams at the location shown on sketch plan titled "LNG Canada Export Terminal Section 9 Changes In And About A Stream Geotechnical Access Road Crossing", Revision G, dated November 16, 2015 (hereinafter referenced as the "site").

1. The permit holder must ensure that activities authorized under this permit do not result in any deleterious materials being deposited into a stream, wetland or lake.
2. Equipment used while conducting works must be situated in a dry stream channel or operated from the top of the bank.
3. Instream works associated with this project must not prevent the movement of fish, nor impede the movement of fish to the extent that it is harmful to the survival of the fish.
4. During the restoration of a change in and about a stream, the permit holder must ensure that:
 - a. the channel is restored to its natural state, to the extent practicable
 - b. the site is restored by:
 - i. stabilizing banks and slopes to prevent sediment from entering the stream,
 - ii. re-vegetating disturbed areas using seed or vegetative propagules of an ecologically suitable species
5. A notice of construction start must be submitted to the Commission a minimum of 48 hours prior to the commencement of activities under this permit. Notification must be sent to OGC.ExternalNotifications@bcogc.ca.
6. The permit holder must notify Haisla Nation a minimum of 48 hours prior to commencing any activities under this permit.

The attached plan(s) form an integral part of this authorization.

Justin Anderson
Review Approval Resource Officer
Commission Delegated Decision Maker

pc. CFSW LNG Constructors
