INFORMATION BULLETIN

Supplemental Information Regarding Pipeline Approval Timelines

FORT ST. JOHN - Information Letter 09-15 released August 26, 2009 varied the timelines on all certificates for pipeline projects and associated segments by limiting the time in which the company must construct and complete the line. Additionally, each company was provided a list of subsisting pipeline projects and/or segments affected by this policy change. The list of projects and/or segments was divided into four distinct timelines based on their initial approval date as follows:

- Certificates issued pre-Commission (prior to January 1, 1999)
- Certificates issued January 1, 1999 to September 30, 2004
- Certificates issued October 1, 2004 to October 31, 2007
- Certificates issued November 1, 2007 to current

Where company records identify that projects and /or segments have been constructed, submission of the following Historical Pipeline Requirements form (described in IL 07-20) is required.

<http://www.ogc.gov.bc.ca/documents/informationletters/OGC%2007-20%20Historical%20Pipeline%20Data%20Submission%20Requirements.pdf>

<http://www.ogc.gov.bc.ca/documents/forms/pipelines/OGC%2007-20%20Requirements%20Form.doc>

The Commission will postpone the cancellation processes on any projects and/or segments issued prior to January 1, 1999 to allow for the submission of the above noted forms and completion of file reviews. We will begin the cancellation process for all outstanding projects and/or segments January 2, 2010.

Cancellation procedures for the other two timelines for projects and/or segments that have not requested an extension will proceed on November 2, 2009.
