

New Fisheries and Oceans Canada (DFO) Website “Working Near Water”

The BC Oil and Gas Commission (Commission) encourages industry to review the new Fisheries and Oceans Canada (DFO) Habitat Management website *Working Near Water*: www.pac.dfo-mpo.gc.ca/habitat/index-eng.htm.

The website contains useful information and tools to assist individuals and industry undertaking projects in and around water understand what they need to know and do to comply with the *Fisheries Act*, including information on:

- DFO regulatory review process.
- Timing windows for instream work.
- Stream crossings, including ice bridges and snow fills.
- Guidelines and planning tools.
- Fish maps and GIS data.
- DFO Fish Habitat Management contacts.

Should you have any questions regarding this Information Bulletin, please contact:
