

Commission Partners in Unconventional Gas Forum

VICTORIA — The BC Oil and Gas Commission (Commission) in partnership with the Ministry of Energy and Mines is hosting the 5th B.C. Unconventional Gas Technical Forum 2011 on Apr. 5-6.

Leading industry and government experts, university researchers and international specialists will gather to share technical information essential to the responsible development of British Columbia's world class unconventional gas resources. Session topics range from resource identification through to assessment, development into production.

The forum will take place at the Victoria Conference Centre and Empress Hotel. Registration closes Apr. 1, 2011. For more information, visit the forum [website](#).
