

Revisions Made to Crown Land Application Manual

TO: Industry Clients
EFFECTIVE: Dec. 1, 2013

The BC Oil and Gas Commission (Commission) has released revisions to the [Crown Land Application Manual](#) related to Content of Notice and the removal of Crown Land Status Sheets. These changes apply only to non-Oil and Gas Activities Act (OGAA) Crown land application engagement. The intent is to streamline the information required by the Permitting and Authorizations and Community Relations departments and to ensure consistent, quality engagement for Crown land tenure holders.

In place of the Crown Land Status Sheet is a new [Rights Holder Engagement Line List](#) template for non-OGAA applications. Other manuals affected by the revision have also been updated.
