

Upcoming Information Session on E-Permitting

The BC Oil and Gas Commission (Commission) is hosting a second information session for industry clients on its Business Transition Strategy (BTS). This session will provide an update on the Business Transition Strategy with a focus on the E-Permitting and E-Payment projects.

The information session is scheduled for Apr. 24 at the Commission's Fort St. John office (6534 Airport Road) from 9:30 a.m. to 11:30 a.m. Attendees are asked to [RSVP](#) by Apr. 18 as there is a limited number of seats.

The Commission has initiated the E-Permitting and E-Payment projects to develop an enhanced online permit application environment for external and internal users. To ensure the project meets the needs of its intended users, the Commission is engaging stakeholders for feedback throughout the project.

An overview of the Commission's Business Transition Strategy is available [online](#). This new website includes links to the previous industry session presentation and Industry Bulletins specific to this project. The website will be updated over the coming months as E-Permitting, E-Payment and other BTS projects move toward implementation.
