Conventional Production

Dear Sir:

Re: Application to Convert Well Kissinger Vaughey Siphon 7-3-87-16 W6
to a Water Disposal Well - Siphon Dunlevy Pool

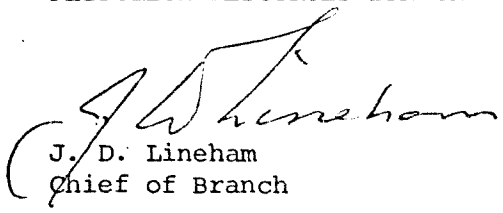

Notice of your application to convert the well Kissinger Vaughey Siphon 7-3-87-16 W6 into a salt water disposal well was published in the British Columbia Gazette on 1979 10 18 and 1979 10 25.

As no objections were received by 1979 11 08 approval is granted to dispose of water produced from the Dunlevy formation by injection of the fluids below the original gas water contact of the Dunlevy formation in this well.

This approval may be modified or rescinded by the Chief of Branch if deemed necessary.

Yours truly,

PETROLEUM RESOURCES BRANCH

J. D. Lineham
Chief of Branch
