Dear Stephen Penner:

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT CANCELLATION
CNRL ROGER a-29-A/94-J-15 (WA# 5790)
ROGER FIELD – PINE POINT FORMATION**

The subject well was drilled and completed in the Pine Point 'A' pool in 1983 as a gas well. The well was approved for salt water disposal into the Pine Point formation on April 8th, 1987 and the well was reentered and recompleted in a deeper section of the Pine Point formation for disposal in July of 1987. Disposal operations began in April of 1989 and the last reported disposal into the well occurred in September 2007. On November 7th, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.

Pursuant to the *Oil and Gas Activities Act (OGAA)* section 75(2)(b), the Commission may cancel, suspend or amend a designation (iii) if the Commission considers that the designation is spent, or (iv) if the Commission considers that the designation is no longer appropriate, including, without limitation, for reasons of (a) public safety, (b) protection of the environment, or (c) conservation of petroleum and natural gas resources.

The Special Project Approval granted on April 8th, 1987 for the Roger field, Pine Point formation well CNRL Roger a-29-A/94-J-15 (WA 5790) is hereby cancelled under section 75(2)(b) of OGAA. In accordance with Section 75(2)(b)(iii), the Commission considers that the designation is spent.

Should you have any questions, please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430.

Sincerely,
