Dear Mark Piercey:

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT CANCELLATION
TERVITA FLATROCK A14-7-84-16 (WA# 5793)
FLATROCK FIELD – DUNLEVY FORMATION**

The subject well was drilled and completed in 1982 in the Halfway 'F' pool as an oil well but only produced minor oil volumes. The well was later completed into the Flatrock 'B' pool in 1983 for oil production. Approval for salt water disposal into the Dunlevy was granted on July 31st, 1992 however the well continued to produce until 2014 and the Dunlevy formation was never completed. On November 1st, 2019, Tervita Corporation indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.

Pursuant to the *Oil and Gas Activities Act (OGAA)* section 75(2)(b), the Commission may cancel, suspend or amend a designation (iii) if the Commission considers that the designation is spent, or (iv) if the Commission considers that the designation is no longer appropriate, including, without limitation, for reasons of (a) public safety, (b) protection of the environment, or (c) conservation of petroleum and natural gas resources.

The Special Project Approval 92-02-003 for the Flatrock field, Dunlevy formation well Tervita Flatrock A14-7-84-16 (WA 5793) is hereby cancelled under section 75(2)(b) of OGAA. In accordance with Section 75(2)(b)(iii), the Commission considers that the designation is spent.

Should you have any questions, please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430.
