Dear Stephen Penner:

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT CANCELLATION
CNRL BUICK c-57-1/94-A-11 (WA# 6529)
BUICK CREEK FIELD – UPPER HALFWAY FORMATION**

The subject well was drilled and completed in the Lower Halfway 'B' pool in 1986 as an oil well and was later converted to a water injection well in 1998. The Lower Halfway zone was abandoned and the Upper Halfway zone was completed for water injection in September of 2003. The well was approved for salt water disposal into the Upper Halfway formation on September 8th, 2003 but no disposal operations have occurred. The Upper Halfway zone was abandoned in January of 2013. On November 7th, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.

Pursuant to the *Oil and Gas Activities Act (OGAA)* section 75(2)(b), the Commission may cancel, suspend or amend a designation (iii) if the Commission considers that the designation is spent, or (iv) if the Commission considers that the designation is no longer appropriate, including, without limitation, for reasons of (a) public safety, (b) protection of the environment, or (c) conservation of petroleum and natural gas resources.

The Special Project Approval 03-02-008 for the Buick Creek field, Upper Halfway formation well CNRL Buick c-57-1/94-A-11 (WA 6529) is hereby cancelled under section 75(2)(b) of OGAA. In accordance with Section 75(2)(b)(iii), the Commission considers that the designation is spent.

Should you have any questions, please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430.

Sincerely,

Ron Stefik, Eng. L.
