ADSETT FIELD – DEBOLT FORMATION**

The subject well was drilled and completed in the Slave Point 'A' pool in 1994 as a gas well and was later completed into the Debolt formation in January of 2005. The well was approved for salt water disposal into the Debolt formation on February 24th, 2005, however no disposal operations have occurred. On November 7th, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.
