Dear Mr. Martinez:

PACIFIC CANBRIAM ET AL KOBES a-A87-G/94-B-9 (WA# 14126)  
KOBES FIELD – DEBOLT FORMATION**

---

The subject well was dually completed as a Baldonnel gas producer and a Debolt water disposal well. Baldonnel production occurred between July 2004 and June 2014. Approval for salt water disposal into the Debolt formation was granted on November 3, 2005. The last disposal activity occurred in June 2018. The Debolt formation was zonally abandoned on October 9, 2019. Pacific Canbriam Ltd. has indicated there are no plans to reactivate disposal operations in this well and concur that cancellation of the disposal approval is appropriate.

The Special Project Approval 05-02-009, for the Kobes field, Debolt formation, well Pacific Canbriam et al Kobes a-A87-G/94-B-9 (WA# 14126), is hereby cancelled under section 75(2)(b) of OGAA. In accordance with Section 75(2)(b)(iii), the Commission considers that the designation is spent.
