Dear Ms. Wood:

**RE: PRESSURE MAINTENANCE WATERFLOOD CANCELLATION  
OWL FIELD – CECIL ‘A’ POOL – DEVON PROJECT**

The Commission is presently reviewing and amending waterflood approvals to conform to current requirements. The waterflood project in the Owl field, Cecil ‘A’ Pool, approved on April 14, 1997, has been reviewed by Commission staff. Table 1 lists the completed wells in the subject project. Commission records for the project indicate that water injected ceased in May of 2016. On August 17<sup>th</sup>, 2020, Canadian Natural Resources Limited indicated to the Commission via email that they had no plans to restart injection operations and concurred that cancellation of the approval is appropriate.
