Dear Carrie Rowe:

**RE: PRESSURE MAINTENANCE GAS INJECTION PROJECT CANCELLATION
SUNSET PRAIRIE FIELD – CECIL ‘D’ POOL**

The Commission is presently reviewing and amending pressure maintenance gas injection project approvals to conform to current requirements. The pressure maintenance gas injection project in the Sunset Prairie field, Cecil ‘D’ pool, approved on December 20th, 2006, has been reviewed by Commission staff. Table 1 lists the completed wells in the subject project. Commission records for the project indicate that gas injection ceased in May 2009. On September 25th, 2020, Shell Canada Limited indicated to the Commission via email there is no plan to restart injection operations and concurred that cancellation of the approval is appropriate.

Table 1: Wells in the Sunset Prairie field, Cecil ‘D’ pool Duvernay Project

WA	Well Name	UWI	CE - Mode/Fluid/Oper
9410	Shell et al Sunset 11-28-80-18	100/11-28-080-18W6/00	SUSP/OIL/PROD
10624	Shell et al Sunset 5-3-81-18	100/05-03-081-18W6/02	ABNZ/GAS/PROD
10794	Shell Sunset 4-10-81-18	100/04-10-081-18W6/00	ABAN/GAS/INJ
22001	Shell Sunset 1-4-81-18	100/04-03-081-18W6/00	ABNZ/OIL/PROD

The pressure maintenance gas injection project approval Order # 06-13-001 for the Sunset Prairie field, Cecil ‘D’ pool, is hereby cancelled, under the authority of OGAA section 75(2)(b)(iii) as the designation is spent.

Please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430 should you have any questions.

Ron Stefik, EngL
Supervisor, Reservoir Engineering
