Dear Mr. Tripp,

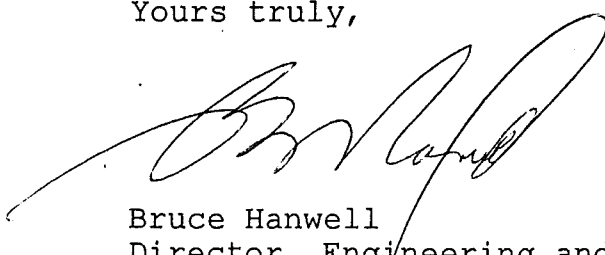

**Gas Injection Scheme (BHP Project 03)
Cecil Lake, Cecil D Pool**

The Geology Branch of the Energy Resources Division has recently reevaluated the previously designated Cecil Lake, Cecil A pool. As a result of the evaluation, the Cecil Lake Cecil A has been split into two pools. The approved gas injection project for section 6-85-17 W6M, effective immediately, now injects into the Cecil Lake, Cecil D pool.

Therefore, under Section 6 of the Scheme Approval, dated September 13, 1989, the Approval is modified to reflect the change in the pool name from the Cecil Lake, Cecil A pool to the Cecil Lake, Cecil D pool.

If you have any questions in regards to this change, please contact Mr. Peter Davis, Senior Reservoir Engineer, at (604) 952-0325.

Yours truly,

Bruce Hanwell
Director, Engineering and Operations Branch
Energy Resources Division
