Amendment #1

Mr. Steve M. Nash
Senior Reservoir/Jt. Interest Engineer
BHP Petroleum (Canada) Inc.
800 Pattison Square
550 - 11th Avenue S.W.
Calgary, Alberta
T2R 1M7

Pool changed to "D" BHP Project (03)

Dear Mr. Nash:

RE: MODIFICATION TO GAS INJECTION SCHEME
CECIL LAKE CECIL "A" POOL

This is regarding your application dated August 12, 1991, requesting an increased oil allowable for the subject scheme due to the drilling of the oil well 10-6-85-17 W6M. A meeting in Victoria with the Branch staff on August 26, 1991, concerning this application is also acknowledged.

As an infill oil well has been drilled and in view of the satisfactory way in which this scheme has been operated, the terms of gas injection approval dated September 13, 1991, granted under section 116 of the Petroleum and Natural Gas Act are hereby revised as follows:

- 2. The project daily oil allowable will be 61.5 m³. This allowable is based on the sum of individual well allowables within the project area.

All other conditions of the original approval remain unchanged.

Yours sincerely,

B.E. Hanwell

B.E. Hanwell
Director
Engineering and Operations Branch

- PSA verbally approved inf of BHP solution gas into Cecil A pool. (from 10-6)
