 Calgary, Alberta

Attention: Mr. L. D. Driscoll

Dear Sir;

Re: Coseka N Buick d-55-F/94-A-15

We acknowledge receipt of your letter dated October 15, 1975 requesting continuation of the approval for down-hole commingled production. This will confirm the telephone conversation of November 5 between Messrs. Driscoll and Barber in which verbal approval of your application for a further period of six months was given.

We accept your proposed pro-ration factors of

Bluesky        36%  
 Dunlevy       64%

for the allocation of production.

We would ask you to ensure that a careful check for water production be made throughout the period and to advise us immediately if any further deterioration of the well's deliverability occurs.

Yours truly,

A. G. Weaver,  
 Chief Engineer.
