Dear Sir:

Re: Application for Approval of Con-
current Production Scheme, Jeans
West Area

The recent approval for the subject scheme included the proviso that gas is to be produced from only three wells, located in b-10-A, a-5-B, and a-22-B/94-A-13. It was pointed out, in today's phone discussion with your Mr. R.W. Stanich, that the well in a-22-B is not very productive and was not in fact included as a producer in the 'application'.

Therefore please consider the approval to be amended, with the deletion of a-22-B/94-A-13 from the wells listed in section (d) and the addition to this list of the well located in b-82-J/94-A-12.

Yours truly,
