Dear Ms. Jackson:

**RE: APPLICATION FOR CONCURRENT PRODUCTION
BUICK CREEK LOWER HALFWAY "I" POOL**

This is with respect to your application dated August 14, 1995, requesting approval of a concurrent production scheme for the subject pool.

To date the only well completed in the pool is CNRL Buick a-75-A/94-A-14 (WA 9365). This well was drilled in April and started production in June 1995. A concurrent production scheme approval is considered premature at this time as only two months of production history is available. Consequently, the application cannot be approved at this time.

You may request a concurrent production approval at a future date after adequate pool performance data is available.

Your sincerely,

B. van Oort, P. Eng.
Director
