Revision #1

Mr. E. P. (Paul) Vigneau
Exploitation Engineer
Canadian Natural Resources Limited
2000-425 1st St SW
Calgary AB T2P 3L8

Dear Mr. Vigneau:

**RE: APPROVAL FOR CONCURRENT PRODUCTION
PEEJAY WEST HALFWAY "A" POOL**

Attached is a concurrent production scheme approval for the subject pool, as requested in your application dated March 18, 1996.

The Approval 96-07-004 is hereby granted under section 113 of the *Petroleum and Natural Gas Act*. Please note that this approval is an amendment to the original concurrent production approval of March 1976 for the oil wells in units 44 and 45-G/94-A-14. The project area has been increased to include all oil wells in the pool and a daily gas production limit established.

It should be noted that there are no equity concerns at this time. However, a reserve-based gas allowable limit may be imposed if equity issues are raised due to future drilling.

Yours sincerely,
