Attention: Mr. M. H. Riviere

Dear Sir:

Re: Application for Concurrent Production

Huber Cdn-Sup Total Nig d-53-A/94-H-4 (#3746)

Huber Baldonnel Project

We acknowledge receipt of your application of November 7, 1977 requesting approval for concurrent production from the Baldonnel oil well Huber Cdn-Sup Total Nig d-53-A/94-H-4.

This is to advise that your application is approved subject to the following conditions:

1. The area for concurrent production is units 52, 53, 62 and 63 - A/94-H-4.
2. The oil allowable for the area is 79 BOPD.
3. Gas production from the area will be limited to 350 MSCFD.
4. Gas production will be conserved.
5. The effective date of this approval will be the date the Branch is advised of completion of gas conservation facilities.
6. This approval may be modified or rescinded at any time.

advised July 17/78

The production of a well through both the tubing and tubing/casing annulus without dual completion does not conform to
