Ref. No. 12404

Jack: Please charge the 54 trook

note: The write off of the over production was band on no developed offset wello is only one well in pool.

from Deone prod" to single DoA.

This should also go in the Land Report.

1983 08 26

Murphy Oil Company Ltd. P.O. Box 2721 Calgary, Alberta T2P 2M7

Attention: Mr. S.C. Crosby, P. Eng.

Dear Sir:

Re: Murphy North Boundary 8-31-87-14 W6

This refers to your letter dated 1983 08 18, requesting implementation of the alternative suggested by the Branch in our letter of 1983 08 09 for the well Murphy North Boundary 8-31-87-14 W6.

We wish to advise you of the following:

- 1. The concurrent production approval of 1978 06 12 on SE 1/4 31-87-14 is hereby rescinded.
- 2. The daily oil allowable for the well 8-31 is 6.5 m³/d. This is subject to normal GOR penalty as required by Division (70) of the Drilling and Production Regulations.
- 3. The over-production from the above well will be written off effective September 30, 1983.

Please note that a further review could be made in the future if the G.O.R. of the well increases significantly above its current levels.

Yours truly

A.G.T. Weaver

Director, Engineering and Operations

cc: D.L. Johnson

PSA:kel

bcc: W.L. Ingram P.K. Huus * Note: Write off to the overproduction was based on consideration of equity between producers and former project status.
