Dear Mr. Rowley:

APPLICATION TO CONVERT TO WATER INJECTION
SR IMC Peejay d-52-H/94-A-15
PEX et al Peejay b-74-H/94-A-15
Peejay Unit #3

This acknowledges receipt of your application dated June 7, 1990, requesting approval to convert the subject wells to water injection service.

We concur with your conclusion that the Unit near these wells suffers from poor waterflood support. The conversion of these wells to water injection service will result in increased reservoir pressure, improve overall sweep efficiency and enhance reserve recovery. Accordingly, your request is hereby approved.

Yours sincerely,

B.E. Hanwell
