Attention: Mr. S. W. B. Clement
Engineering Manager

Dear Sir:

RE: Application for Good Engineering Practice
Cabin - Slave Point Pool

This refers to your application of 1980 12 05 requesting a Good Engineering Practice area for the Cabin Slave Point Pool. Notice of your application was published in the British Columbia Gazette of December 18 and 24, 1980.

As no objections were received your application is approved subject to the following conditions:

1. The GEP area consists of units 34,35,44 and 45 of Block B/94-P-5.
2. The off - target factor will be waived for gas well drilled within the GEP area.
3. This approval may be modified or rescinded at any time.

As pointed out in discussions with your staff, the Drilling and Production regulations require that a spacing penalty may have to be applied to an off-target well in the GEP area should a successful on-target well be drilled in an adjacent spacing area.

Yours truly,

R. W. Durie
R. W. Durie,
Assistant Deputy Minister
Petroleum Resources Branch
